## ■ Docebo - [Docebo app](#)

- integrates Docebo's LMS

## ■ Domo - [Domo app](#)

- find the Domo visualization cards and data sets

A screenshot of the Docebo dashboard interface. The top navigation bar includes 'Docebo', 'Dashboard', 'Chat', and 'About'. A search bar is located on the right. The left sidebar contains icons for Chat, Teams, Docebo, Activity, and Apps. The main content area features several sections: 'Learning in the Flow of Work' with a circular diagram, 'Getting Into The Zone With The Flow Model' with a video thumbnail, 'Onboarding' with a list of courses, and 'Online Security' with a grid of security training cards. The 'Onboarding' section lists courses like 'Diversity for Leaders: Leadership of a Diverse Group', 'Docebo Learning Suite', 'Starting with the Basics', 'MS TEAMS LP', 'Social Learning with Discover, Coach, and Share', and 'Developing Engaging Content with Shape'. The 'Online Security' section includes cards for 'Cyber Security Awareness', 'HIPAA Security Training', 'Online Essentials - Email Security', 'Security Awareness - A Day In The Life', 'Phishing', and 'Action-centered leadership'.

- personalization to onboarding
- personalized learning journeys
- AI chat bot for employee onboarding

The screenshot shows the 'Embark by Hermis' web application. The top navigation bar includes links for Chat, Home, Events Calendar, Resources, Settings, and About. The main heading is 'Create Journey Map'. Below this, a prompt asks to 'Generate a functional onboarding journey based on your prompt'. A text input field contains the prompt: 'Create onboarding on Kubernetes for Software Engineer with 1-2 years of experience over 2 weeks'. Below the input field are filters for Topic, Role, Experience, and Duration. To the right of the filters are buttons for 'CLEAR' and 'GENERATE OUTLINE'. The generated outline is titled 'Kubernetes Software Engineer Onboarding' and lists three items: 'Introduction and Orientation', 'Kubernetes Fundamentals', and 'Codebase Deep Dive'. Each item has a 'Hosted' status and a brief description. To the right of the outline are buttons for 'GENERATE AGAIN' and 'USE THIS OUTLINE'.

Q3 Hotel Spend Forecasting

Hey team. Our hotel spending last quarter was the one weak area of an otherwise exceptional budget. We should aim to find ways to lower our spending. Ideally by 10% over the remaining fiscal.

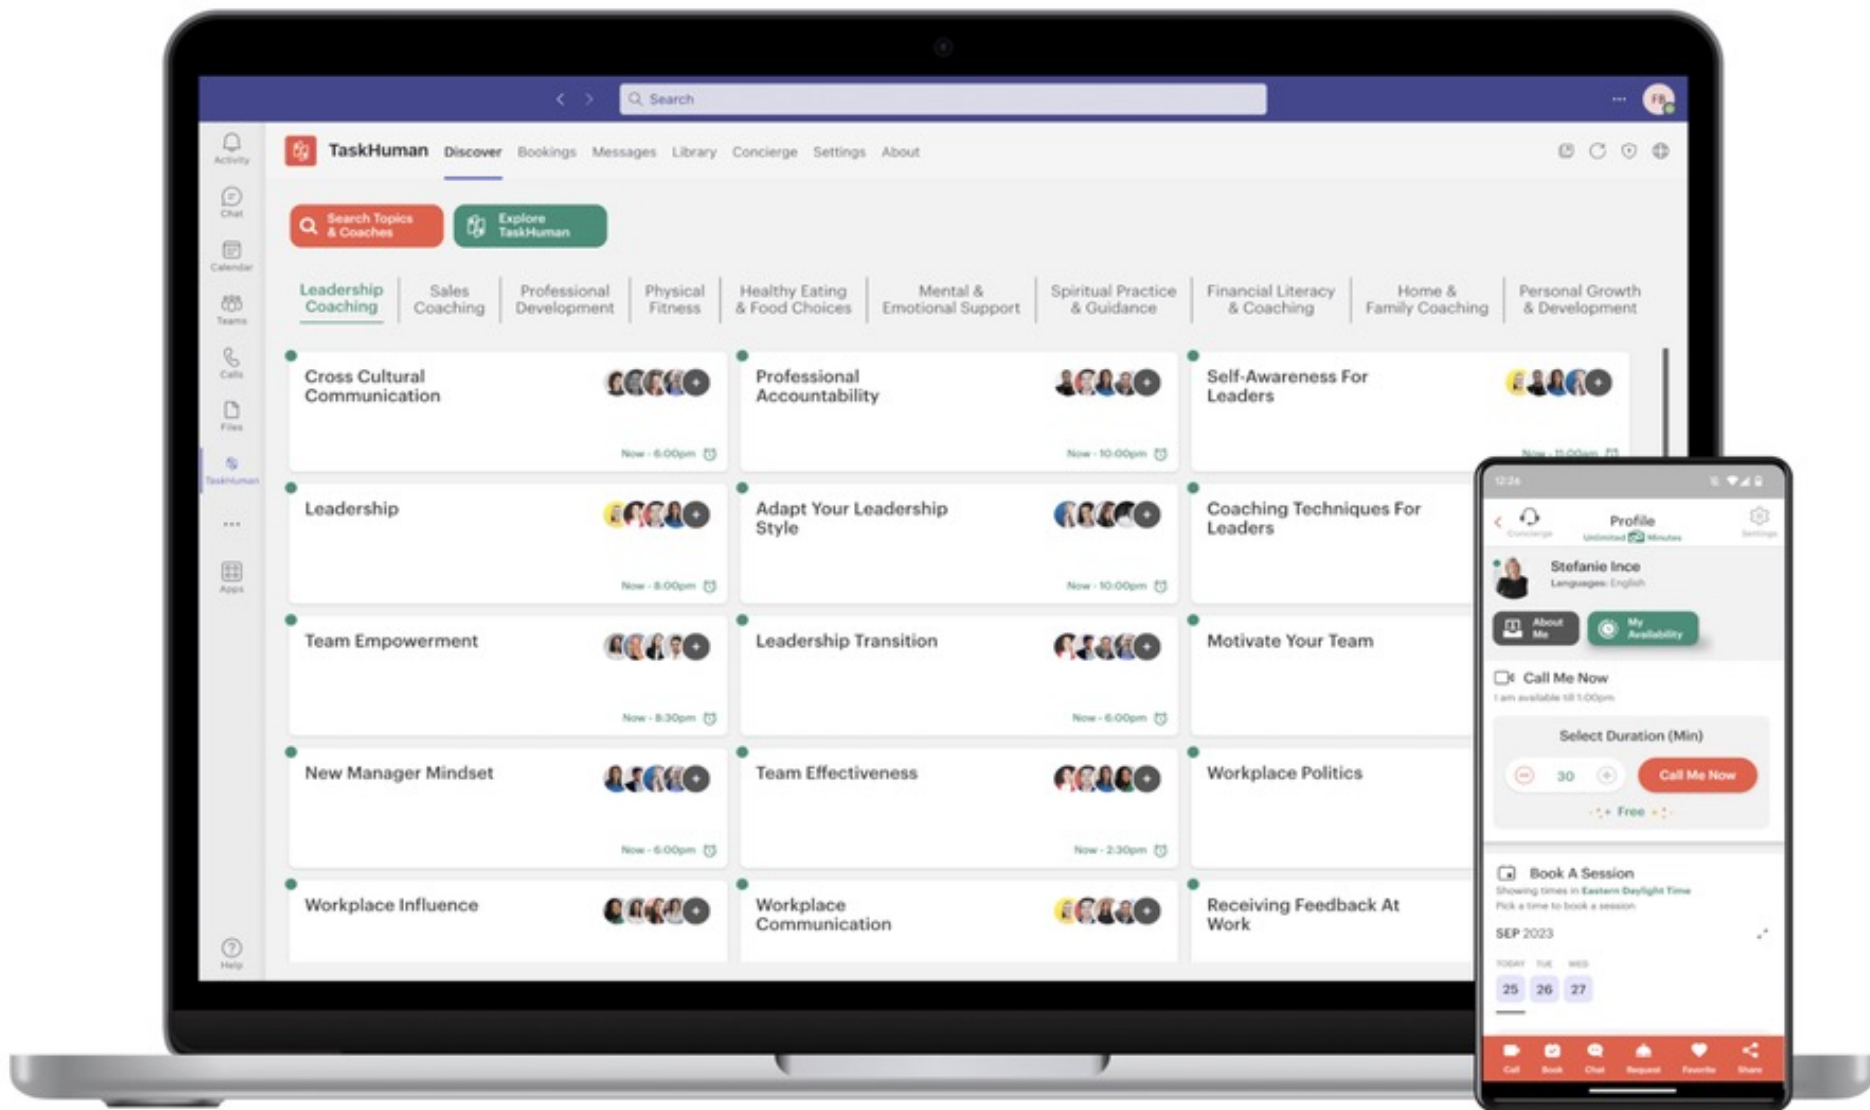

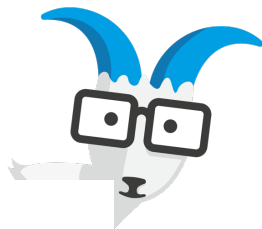

Johanna Lorenz

11:35 AM

Can we get any discounts on hotels next quarter?

**More about cow burps**  
Carbon Neutral Club

**It's true! Scientists in Hawaii have found a type of seaweed that reduces methane in cow burps by 80%.**

Recent research suggests that a special type of seaweed, called *Asparagopsis taxiformis* (a.k.a. Red Seaweed) is capable of reducing methane production in cattle by over 80 percent. Seeing as livestock production (primarily cows) is responsible for close to 15% of global GHG emissions, this recent discovery could pave the way for a much more climate-friendly form of raising cattle. To learn more, check out some of the recent research at UC Davis 🌱

The image shows a screenshot of a chat application window titled "Neo | Internal (v2.1)". The window has a dark theme. At the top, there's a header bar with the title and two tabs: "Chat" and "About". The main content area displays a chat history. The first message is a system message: "for 'Item Label', 'Lodestone', and 'Meg Maps' despite no errors being displayed on the PC or printer screen. The support agent suggested restarting the HHTs services. After calling the store, the store representative confirmed that the issue was resolved after restarting the HHTs services. The support agent then closed the ticket..". Below this is a "Sources" section with a link "ConnectWise Manage". Then, a question "Was this response helpful?" is shown with "Yes" and "No" buttons. A timestamp "Wednesday 15:10" is displayed. The next message is from "Neo | Internal (v2.1)" and says "Thinking...". Below it, a ticket summary for "Ticket 1917903" is shown, including a summary, review, and sentiment. Another timestamp "Wednesday 15:11" is shown. The final message is a user request: "Show me all open tickets for Woodland Trust that have come in today. Please don't include any tickets that are related to an Alerts board". The chat window has a footer with a "Type a new message" input field and a row of icons for various functions.

Get a review of how well a ticket was handled by support agents

Siemens introduces a new app

# Trello

The screenshot shows the Trello app integrated into a Microsoft Teams interface. On the left, the Teams sidebar is visible with a list of teams: NorthwindTraders, NorthwindTraders -2, Oxygen OS, Testing Team, and Graph Connector. The main workspace displays the 'ProjectManagement' board. The board has four columns: 'Project Resources', 'Questions For Next Meeting', 'To Do', and 'Pending'. Each column contains several cards with titles, due dates, and assignees. For example, the 'To Do' column has cards for 'Task 1: Complete design Mocks' (due Nov 9), 'Sketch site banner' (due Oct 30), 'Edit email drafts' (due Sep 29), 'Sketch the "Teamy Dreamy" Font' (due Nov 10), and 'Phoenix Mobile App' (due Nov 24). The 'Pending' column has cards for 'Legal review' (due Oct 30) and 'Social media assets' (due Oct 30). The interface includes a search bar at the top, a 'Logout' link, and various filters and sharing options.
