Work Web

We're considering a possible acquisition of Fabrikam. Summarize financial information about the company, including their business strategy.

Copilot All-generated content may be incorrect.

From your work data:
Fabrikam is a global healthcare company that researches, develops, and manufactures innovative pharmaceutical medicines, vaccines, and consumer healthcare products. Here is a summary of the financial information and business strategy of Fabrikam:

Financial Information

- Fabrikam has a significant presence in the healthcare industry, with a focus on three main areas: pharmaceutical medicines, vaccines, and consumer healthcare products ⁽¹⁾
- The company has a multi-cloud strategy, with a preference for Azure services, although Google Cloud Platform (GCP) is also a competitor due to its competitive pricing ⁽²⁾
- Fabrikam's Consumer Health division has built a central data repository in Microsoft Azure and uses Microsoft Power BI to provide employees with instant insights into data, leading to better returns on marketing investments and the elimination of thousands of hours of reporting work

ing financial performance in 2024. In Q1 2024, they reported sales of £7.4 billion, a previous year, with significant growth in vaccines and specialty medicines ⁽³⁾. Their core (7% and core EPS increased by 28%. For the full year, Fabrikam expects turnover rating profit growth of 9-11%, and core EPS growth of 8-10% ⁽⁴⁾.

egy under CEO Mary Huxley focuses on vaccines and infectious diseases ⁽⁵⁾. They are and have made significant progress in their pipeline, including positive phase III results for several key medicines. Additionally, Fabrikam is leveraging digital transformation to enhance their operations and drive innovation.

Expanded file summarization in Loop

The screenshot displays the Microsoft Loop application interface. On the left is a sidebar for the user 'yukyukyukyuku'. It contains a 'Status' section and a 'Copilot' section. Below these, a list of files is shown, sorted by hierarchy. The main workspace on the right is titled 'Party Ideas!' and includes a 'General' tab. A Copilot chat window is open, showing a prompt 'Give me a summary /bal' and a dropdown menu with file suggestions. The dropdown menu has three tabs: 'All', 'Files' (which is selected), and 'Loop Pages'. The 'Files' tab shows three items: two 'balloon' files (both modified by 'You' on August 28) and a 'Loop WXP Desired Experience Walkthrough' file (modified by 'Neena Baliga' on September 11). A 'Share' button is visible in the top right corner of the workspace.

Left Sidebar:

- yukyukyukyuku

You

At a restaurant, each adult meal costs \$15 and kids eat free. If a group of 15 people came in and 8 were kids, how much would it cost for the group to eat?

Copilot

Executing Task:

calculate the total cost for a group of 15 people to eat at a restaurant where each adult meal costs \$15 and kids eat free, with 8 kids in the group

To calculate the total cost for the group to eat at the restaurant, we'll only need to consider the adult meals since the kids eat for free. Here's the breakdown:

- Number of adults: $(15 - 8 = 7)$ adults
- Cost per adult meal: $(\$15)$
- Total cost for adults: $(7 \times \$15 = \$105)$

So, the total cost for the group to eat would be **\$105**.

Prompt like a pro: Powering effective communication with Microsoft 365 Copilot in Teams Phone

The screenshot displays the Microsoft Teams Phone interface during an external call with the number +1 425-555-7695. The top bar shows the call status, duration (06:09), and a 'Leave' button. Below the call controls, the main area is split into two video feeds: a live video of a woman on the left and a placeholder icon on the right. The right sidebar is open, showing the 'Copilot' panel. The panel contains a 'Preview' section with a list of prompts: 'New feature differentiators', 'New feature pricing', and 'New feature technical aspects'. The 'New feature technical aspects' prompt is selected, and its generated response is visible in the chat area. The response includes a 'Transfer' button and a list of unresolved questions. The bottom of the sidebar shows a 'More prompts' section with a 'List action items' button.

Copilot Preview

- New feature differentiators:** Maria from Contoso highlighted the advanced customization options, seamless integration, and robust security measures of the new feature as key differentiators from other solutions in the market
- New feature pricing:** Maria from Contoso explained that the pricing for the new feature is based on a subscription model with various tiers and that she can have the sales team provide detailed pricing information based on Daniela's requirements
- New feature technical aspects:** Maria from Contoso transferred the call to Sean, an engineering expert, who can provide Daniela with detailed insights into the technical aspects and limitations of the new feature and how it can be deployed in Daniela's existing infrastructure

Prompt like a pro: Powering effective communication with Microsoft 365 Copilot in Teams Phone

The screenshot displays the Microsoft Teams Phone interface. On the left is a navigation sidebar with icons for Copilot, Activity, Chat, Teams, Calendar, Calls (selected), OneDrive, Meet, and Apps. The main area is titled 'Calls Personal' and includes a 'View contacts' button. Below the title is a search bar 'Type a name or number' and a numeric keypad. A 'Call' button and the work number '+1 732-555-3858' are at the bottom left. The 'History' section shows a list of calls with columns for contact, status, duration, and time. The Copilot sidebar on the right provides AI-generated insights, including a summary of a recent call and specific suggestions for follow-up actions.

who tried tailspin in their presentation. ¹

- Suggestion:** Joni should follow up with the data team and ask them to provide some quotes or ratings from the pilot users that can be used as testimonials.

Will you be able to create some charts and graphs to show the results?

- Context:** Adele wanted to make the presentation more engaging and persuasive with some visual aids. ²
- Suggestion:** Joni should check the feasibility and availability of creating charts and graphs from the data and inform Adele as soon as possible. If not, they should look for alternative ways to present the data, such as tables or bullet points.
