TALK
Microsoft 365

 Microsoft Teams
User Group Germany

Decode AI

An overview of agents

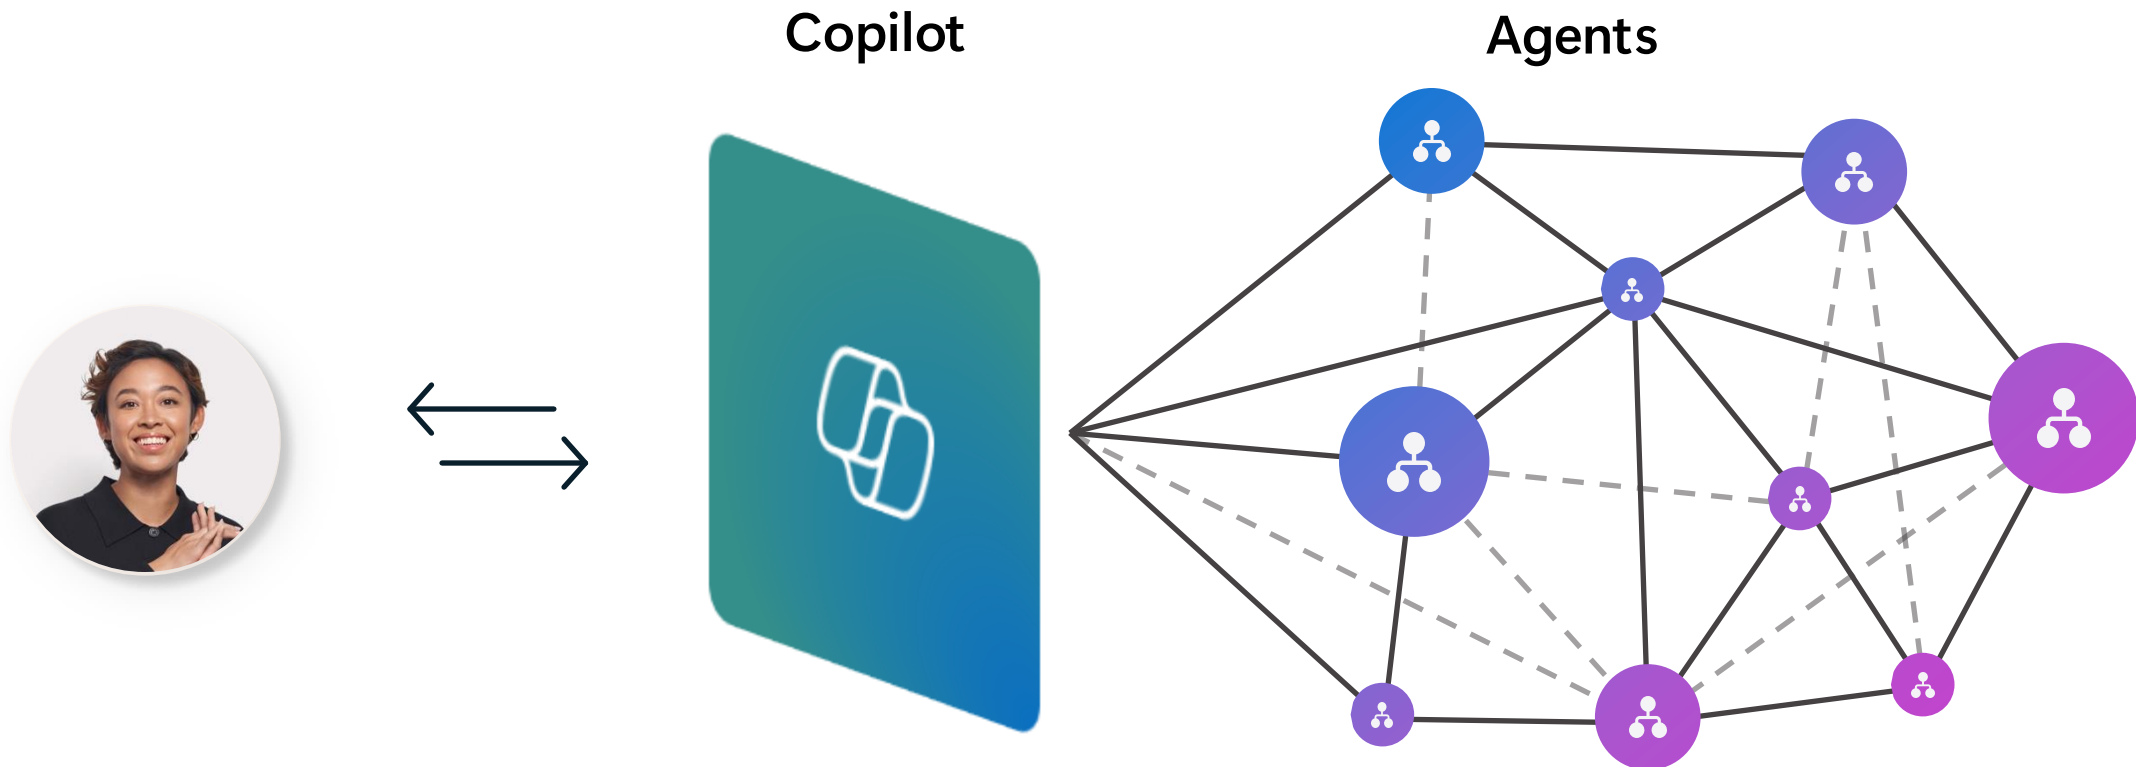

Agents

New agents in Microsoft 365

Copilot is the user interface for AI

"Our goal is to empower every employee with a co-pilot and transform every business process with agents"

SharePoint Agent

SharePoint Agent

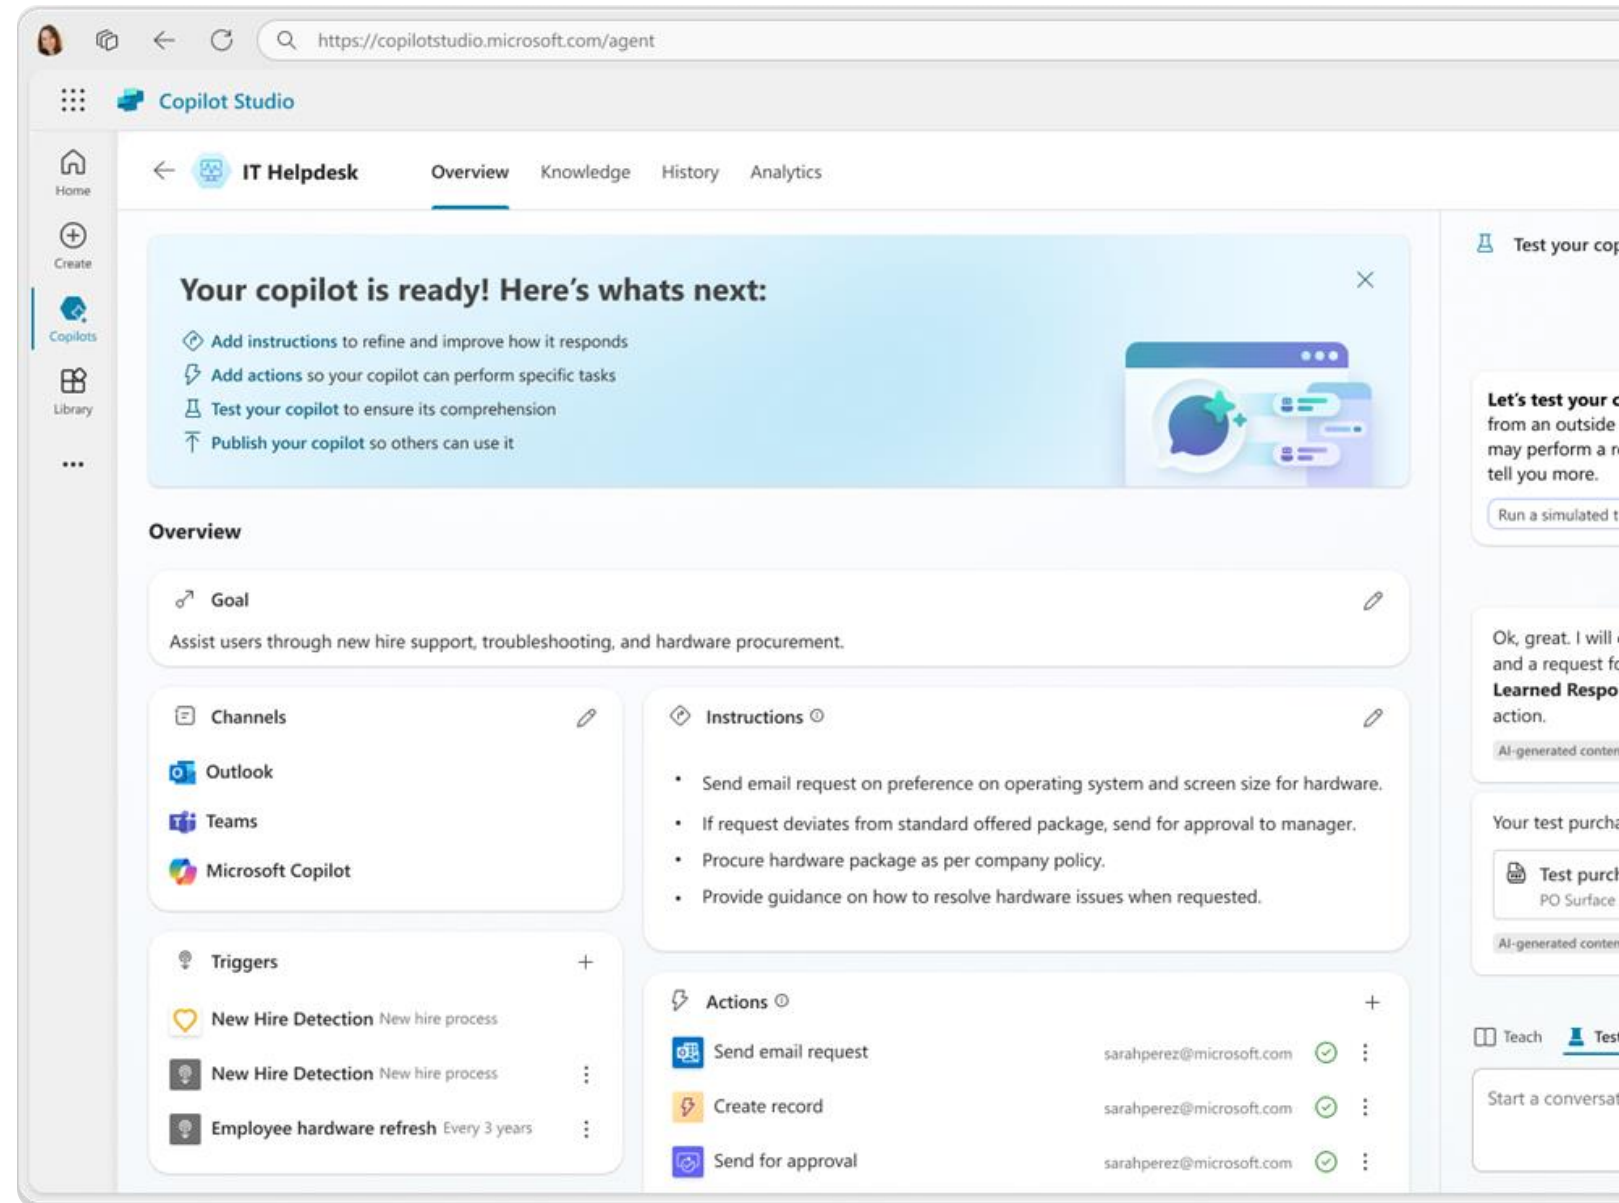

DEMO / SHOWCASE

Agents with external services

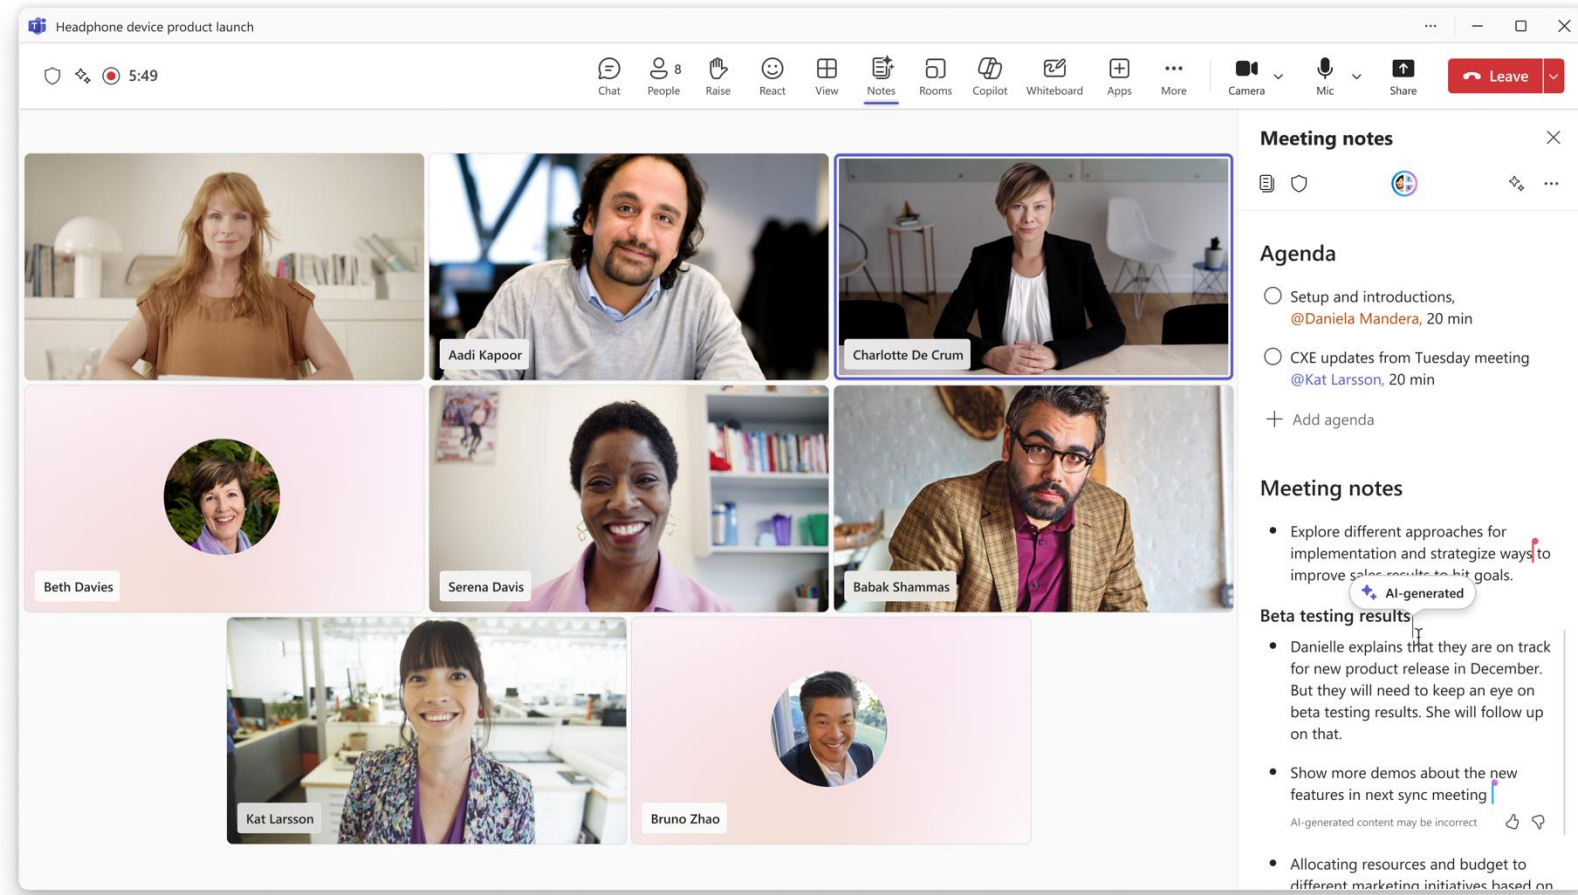

Autonomous capabilities

- Can be triggered by events – not just conversations
- Automates and orchestrates asynchronous jobs with long execution times
- Follow human guardrails and ask for help
- Monitors, learns, and improves with every interaction

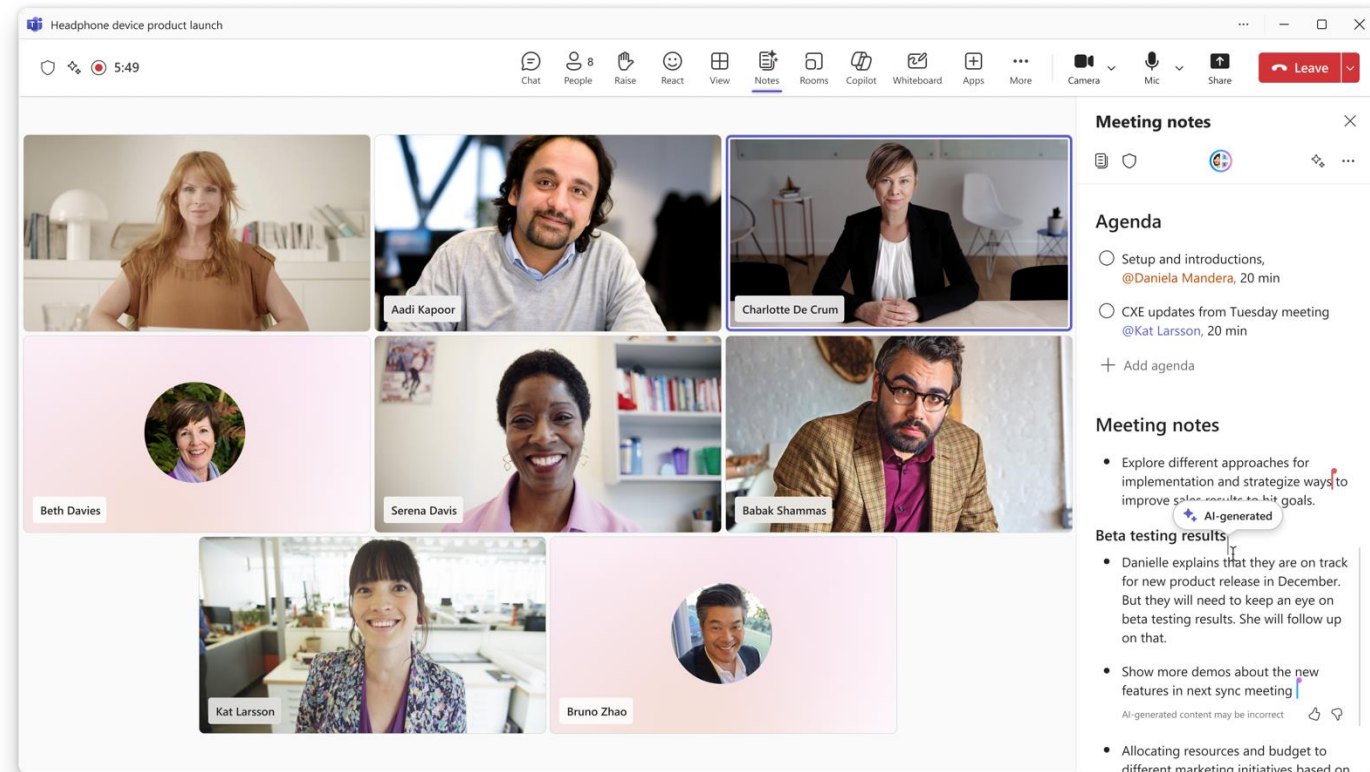

Autonomous Agents – A Few Examples

- Facilitator agent
- Interpreter Agent
- Project Manager agent

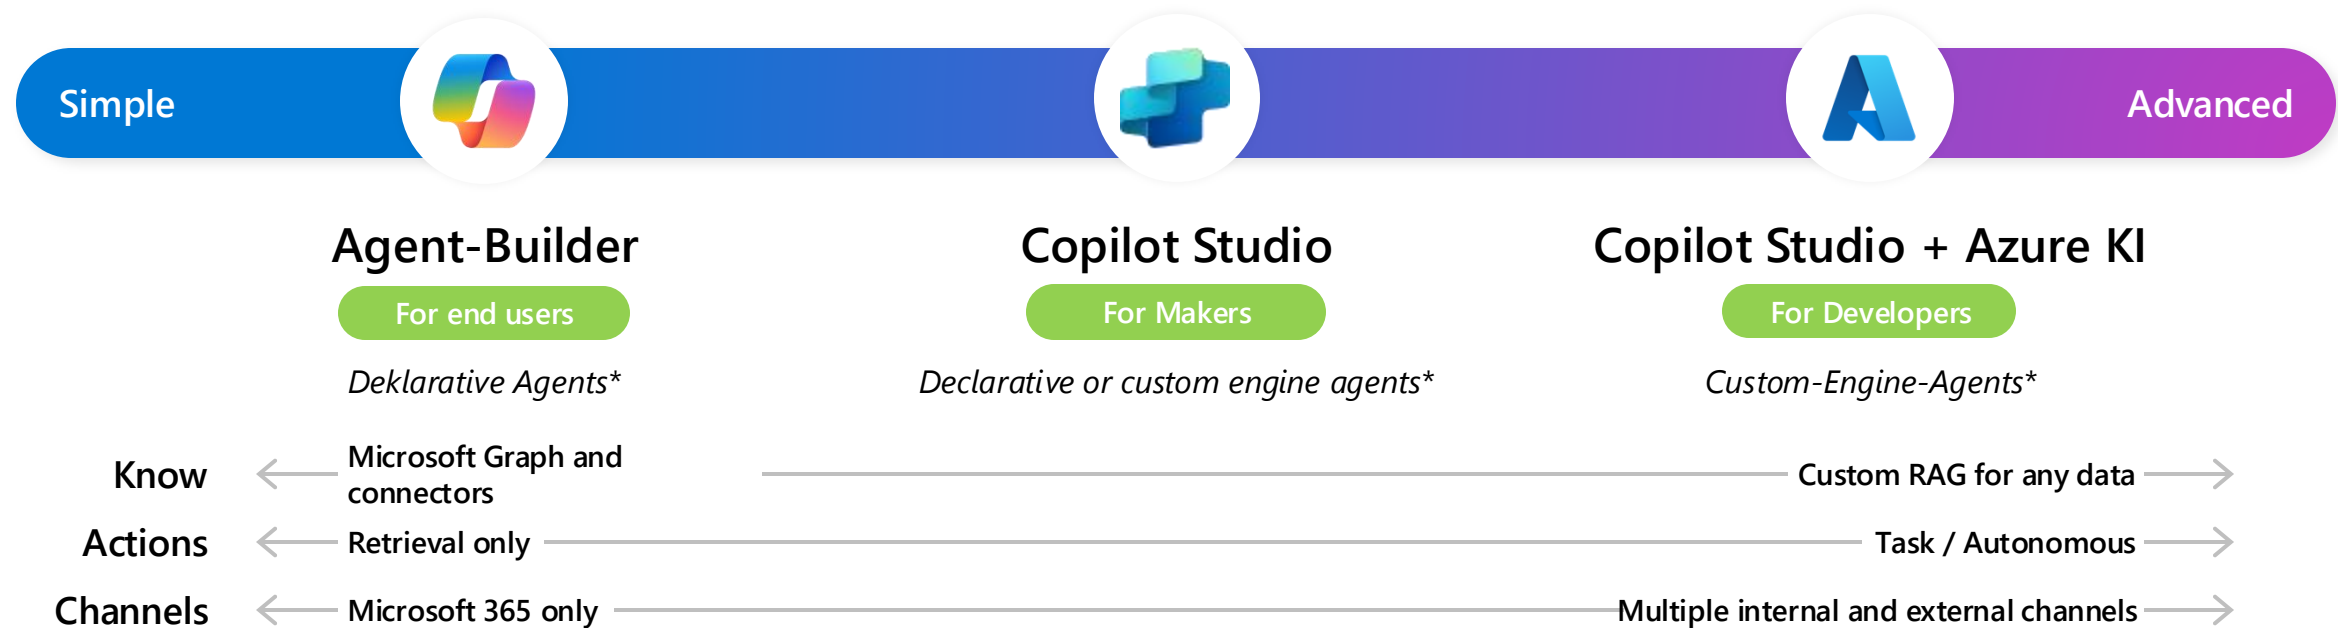

Autonomous Agents – A Few Examples

- Facilitator agent
- Interpreter Agent
- Project Manager agent

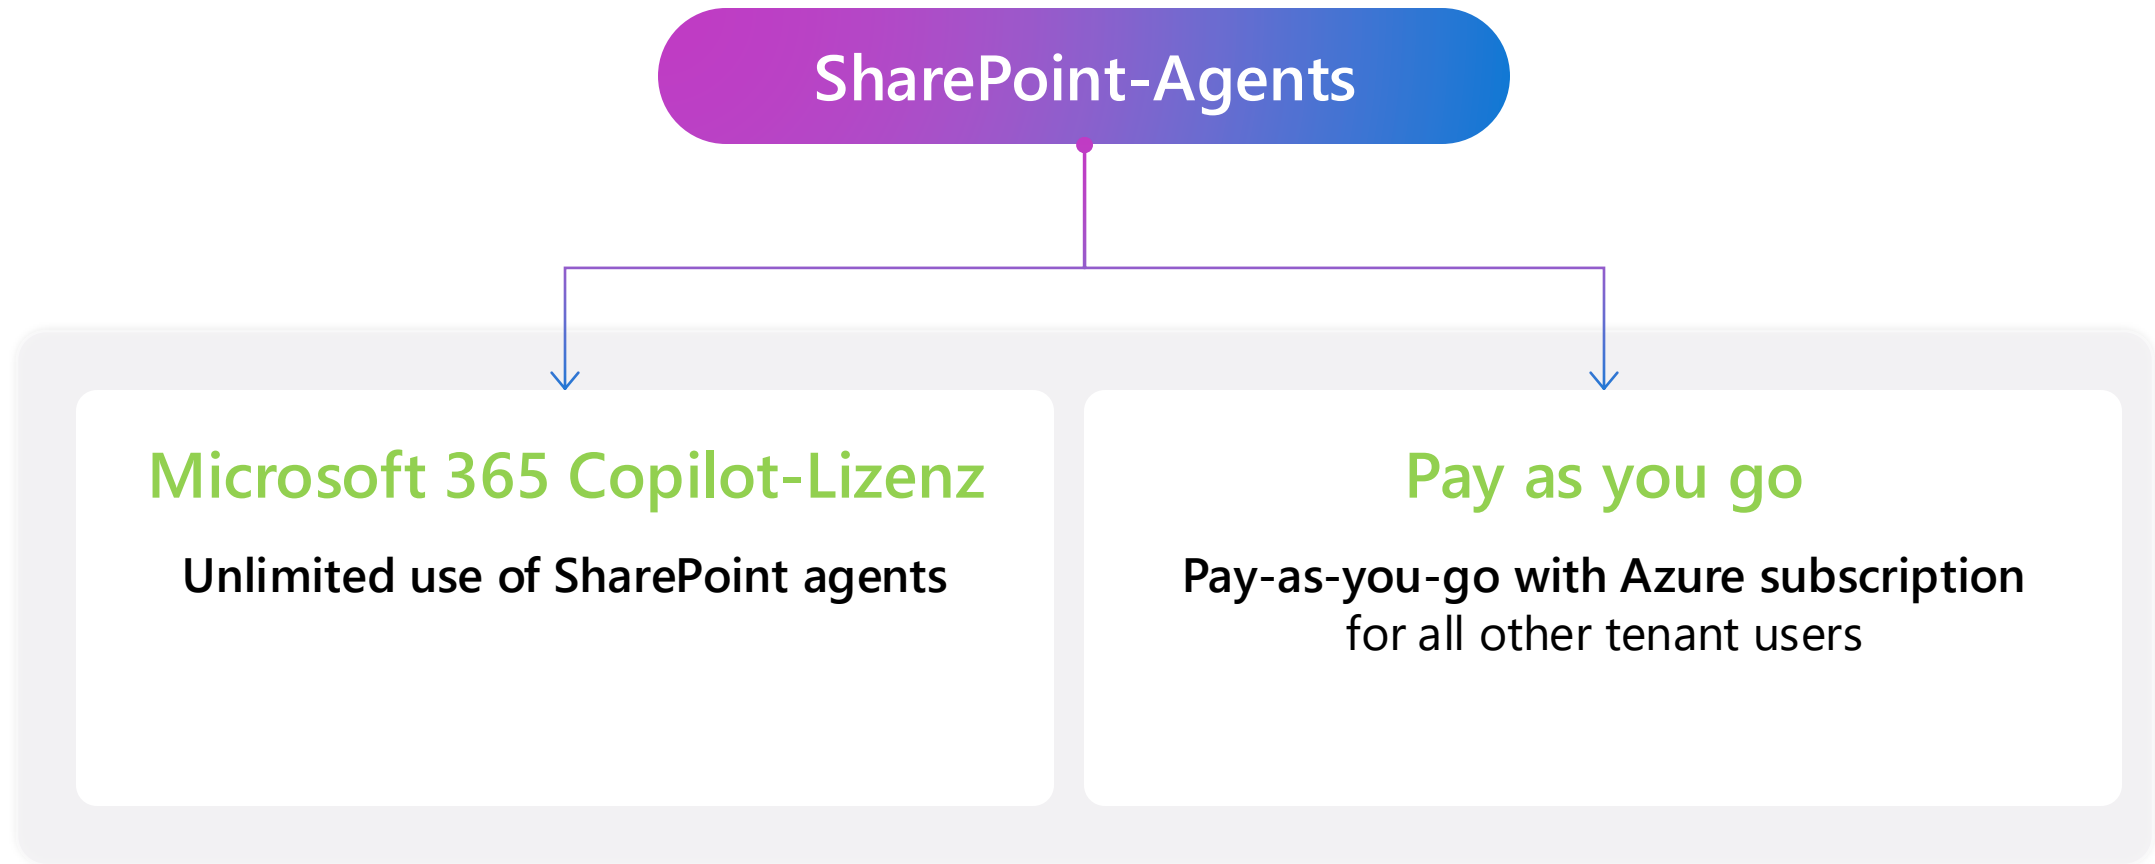

DEMO / SHOWCASE

Tools for creating agents

* Declarative = Prompts handled by Microsoft 365 Copilot; Custom Engine = Prompts handled by a custom AI engine (i.e., Orchestrator and Foundation models)

Licensing options for (SharePoint) agents
