It would be great to sync with you both EOD to have a quick run through before tomorrow.

This is great progress, if you both can set something up with me to review when you feel you are in a good place for feedback. I have a free slot tomorrow morning.

Babak Shamma
I can help you with the deck today. I've completed the initial costings for spring.

I can help you with the rollout plan for EMEA as I've been working closely this week with the local marketing team to get the timings from the external AD agency and media buying team.

That would be a great help, I will call you to discuss at 12.

I've made a start with APAC and LATAM, now I'm just running through the plan for US.

Eric Ishida
That's great. I will collate all the materials from the media agency for buying locations, footfall versus media costs. I presume the plan is still to look for live locations to bring the campaign to life?

The goal is still for each local marketing team to be able to target audience segments

I asked the client to send her feedback by EOD.
