Chat and Collaboration

MÜNCHEN

Customize your draft message when you compose with Copilot

The screenshot shows a Microsoft Teams chat window titled "Web portal launch". The left sidebar lists various channels and recent conversations. The main area shows a message from Hollie Rees at 2/21 3:35 PM: "Yes, absolutely. The site will adjust size based on device and screen size." Lynne Robbins replies at 2/21 3:35 PM: "We need to be sure the site is accessible too. Probably best to refer to the WCAG guidelines." Pradeep Gupta replies at 2/21 3:35 PM: "Definitely. I know that is in the works too. I'll check with the dev team and make sure they're using the guidelines." Lynne Robbins replies at 2/21 3:35 PM: "Generated by Copilot. Be sure to check for accuracy." Below this, a message from Adele Vance says: "This is perfect. Looks like these are the key highlights. I'm planning to call Adele from Fabrikam later and will present this all to her ahead of our meeting next week." A table is displayed, listing features and their descriptions:

Feature	Description
Dynamic home page	Include sections for Products, Services, News, Events, and Testimonials. 1
User-friendly design	Especially important since two distinct pages are being merged. 2
Search	Include a search function on the main page. 3
Security	Include MFA and/or biometric sign-in for users from both companies. 4
End-user account access	After authentication, end-users can access their Account info, Preferences, Orders, Invoices, and Support tickets. 5
Responsive design	The site will adjust size based on device and screen size. 6
Accessibility	Ensure the site is accessible by referring to the WCAG guidelines. 7 8

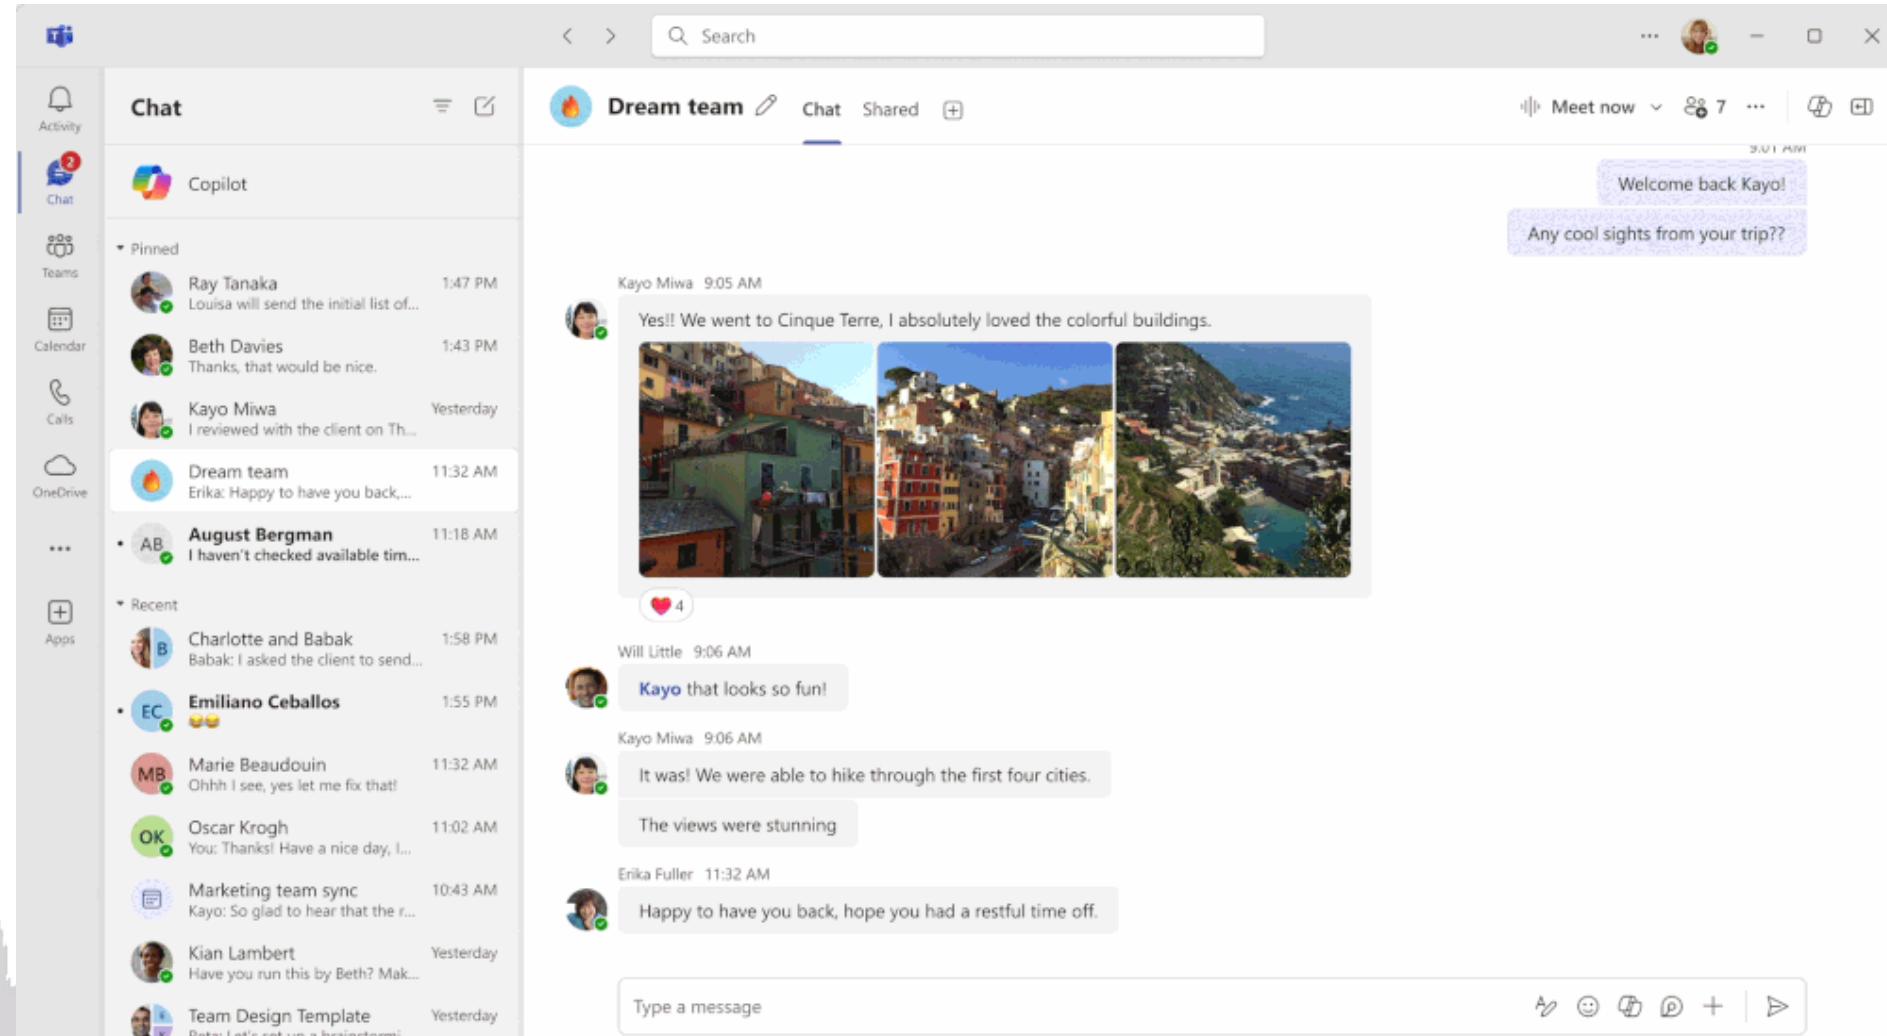

Pradeep Gupta replies at 2/21 3:40 PM: "Looks good to me! Good luck with your call. Let us know if she comes back with any questions we can help answer before the on-site meeting." At the bottom, a draft message reads: "We have a team event next month. We will review the upcoming plans." with standard Microsoft Teams reaction icons.

Intelligent message translation in chats

- New settings regarding translation
- Direct integration in chat to translate in your preferred language

Slash commands

The screenshot shows a Microsoft Teams chat interface. On the left is a sidebar with icons for Activity, Chat (selected), Teams, Calendar, Calls, OneDrive, and Apps. The main area shows a conversation in the 'Dream team' channel. A pinned message from Ray Tanaka is at the top. Kayo Miwa posted a message about Cinque Terre with three images. Will Little responded with a thumbs up emoji. Erika Fuller commented on Kayo's message. The bottom of the screen has a message input field and various icons.

Meet now 7 ...

9:01 AM

Welcome back Kayo!

Any cool sights from your trip??

Kayo Miwa 9:05 AM
Yes!! We went to Cinque Terre, I absolutely loved the colorful buildings.

Will Little 9:06 AM
Kayo that looks so fun!

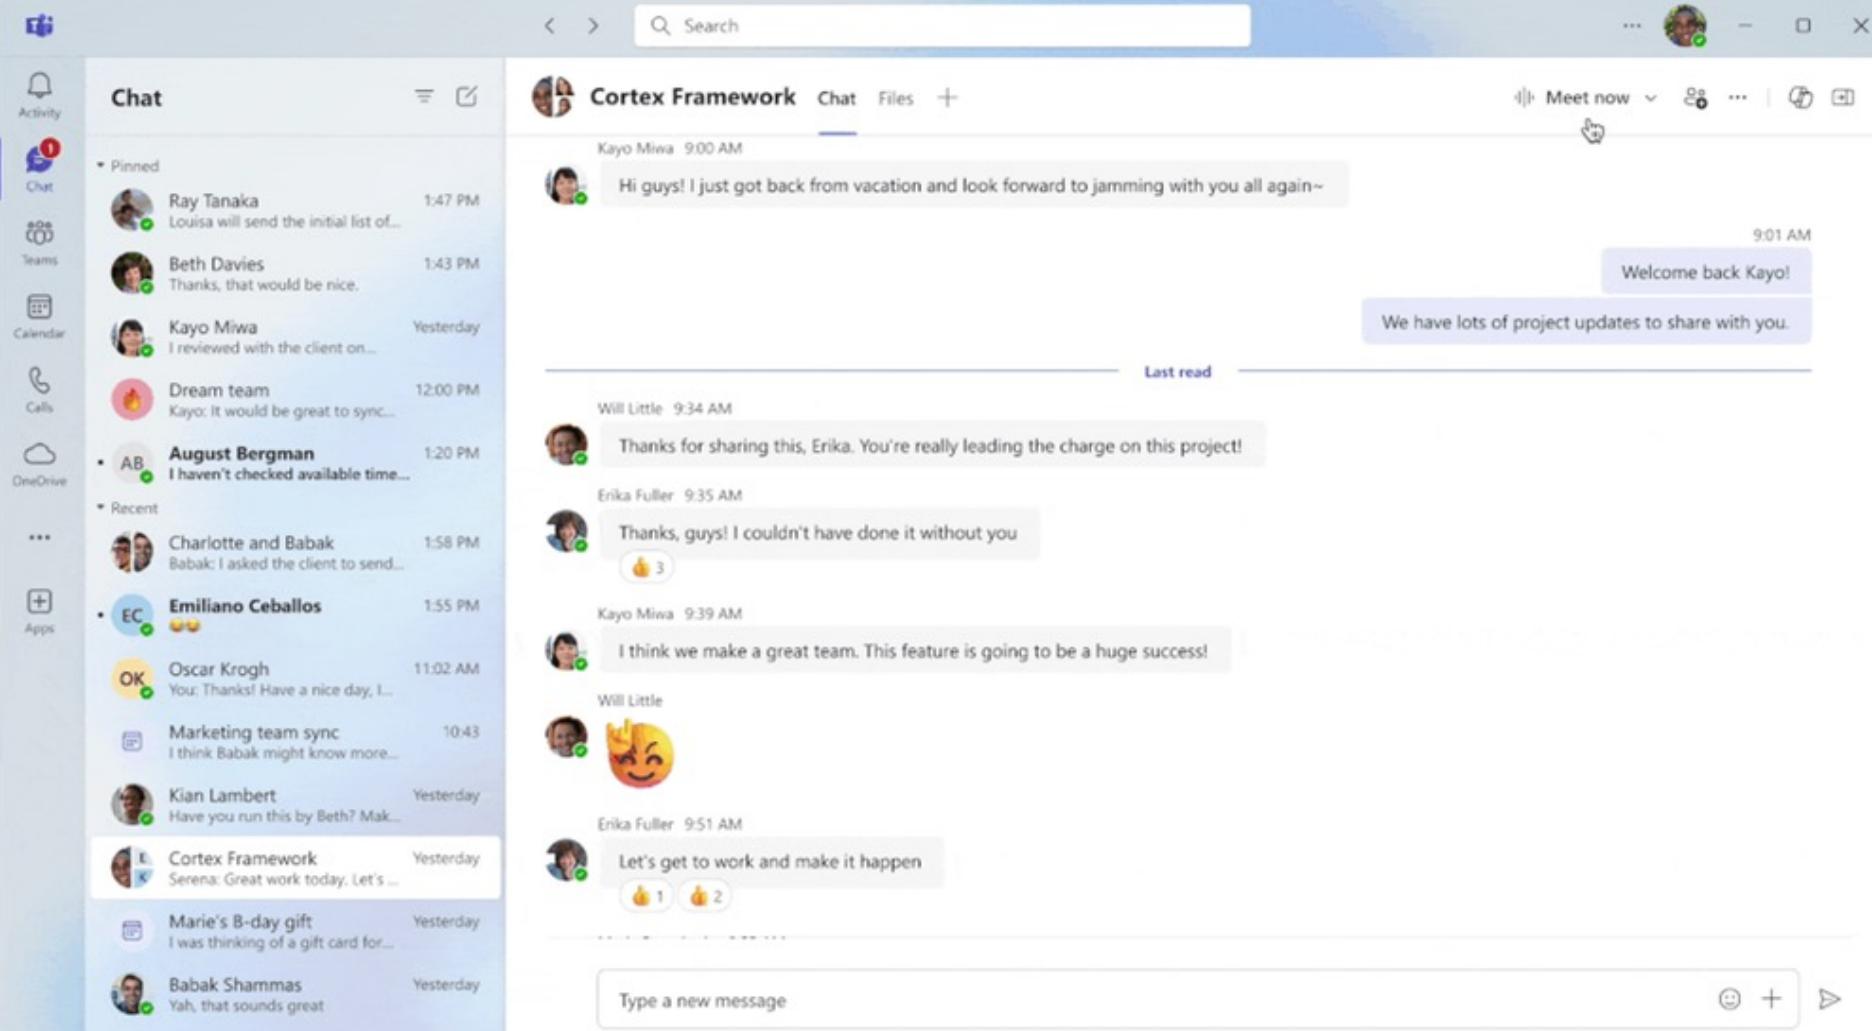

Kayo Miwa 9:06 AM
It was! We were able to hike through the first four cities.

Erika Fuller 11:32 AM
The views were stunning

Erika Fuller 11:32 AM
Happy to have you back, hope you had a restful time off.

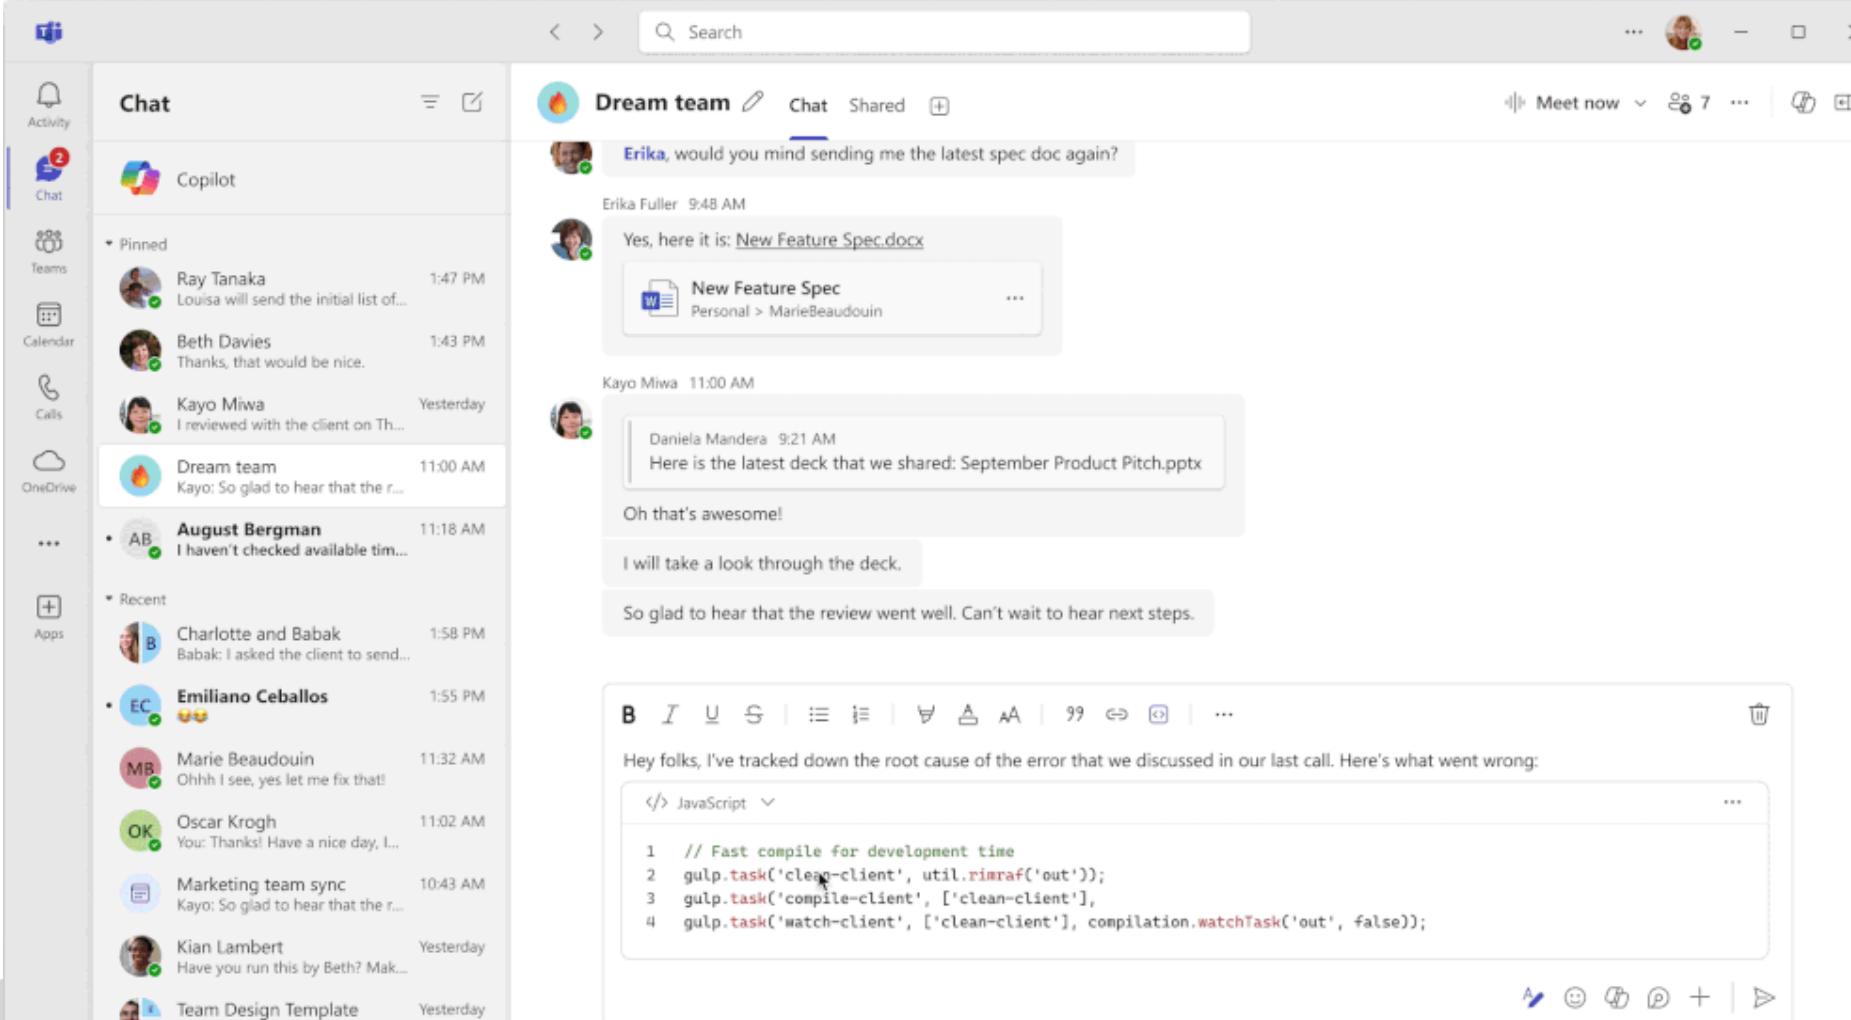

Type a message

Meet now in Teams group chat

The screenshot shows the Microsoft Teams Chat interface. On the left is the sidebar with navigation icons for Activity, Chat (highlighted with a red notification dot), Teams, Calendar, Calls, OneDrive, and Apps. The main area is a group chat window titled "Cortex Framework". The conversation starts with Kayo Miwa at 9:00 AM: "Hi guys! I just got back from vacation and look forward to jamming with you all again~". Will Little responds at 9:01 AM: "Welcome back Kayo!". Erika Fuller adds: "We have lots of project updates to share with you." The messages continue with contributions from Dream team, August Bergman, Charlotte and Babak, Emiliano Ceballos, Oscar Krogh, Marketing team sync, Kian Lambert, and Babak Shamma. A message from Erika Fuller at 9:35 AM includes a thumbs-up emoji with a count of 3. Will Little replies with a smiling face emoji. Erika Fuller follows up with "I think we make a great team. This feature is going to be a huge success!" and "Let's get to work and make it happen". The message "Let's get to work and make it happen" has two reactions: a thumbs-up emoji with a count of 1 and a thumbs-up emoji with a count of 2. The bottom of the screen shows a message input field with placeholder "Type a new message" and a send button.

Co-edit code blocks

The screenshot shows a Microsoft Teams chat window titled "Dream team". The left sidebar lists various channels and recent conversations. The main chat area shows a message from Erika Fuller asking for a spec doc, followed by a file attachment from Kayo Miwa. Daniela Mandera then shares a presentation deck. The conversation continues with messages from August Bergman, Charlotte and Babak, Emiliano Ceballos, Marie Beaudouin, Oscar Krogh, and Marketing team sync. A message from Kian Lambert is partially visible. The bottom of the screen shows a rich text editor interface where a user has pasted a block of JavaScript code. The code is syntax-highlighted and includes several red error markers under words like "rimraf", "watchTask", and "watchTask". The editor toolbar includes standard rich text controls like bold, italic, and underline, along with a code snippet icon.

Erika, would you mind sending me the latest spec doc again?

Erika Fuller 9:48 AM

Yes, here it is: [New Feature Spec.docx](#)

New Feature Spec
Personal > MarieBeaudouin

Kayo Miwa 11:00 AM

Daniela Mandera 9:21 AM

Here is the latest deck that we shared: September Product Pitch.pptx

Oh that's awesome!

I will take a look through the deck.

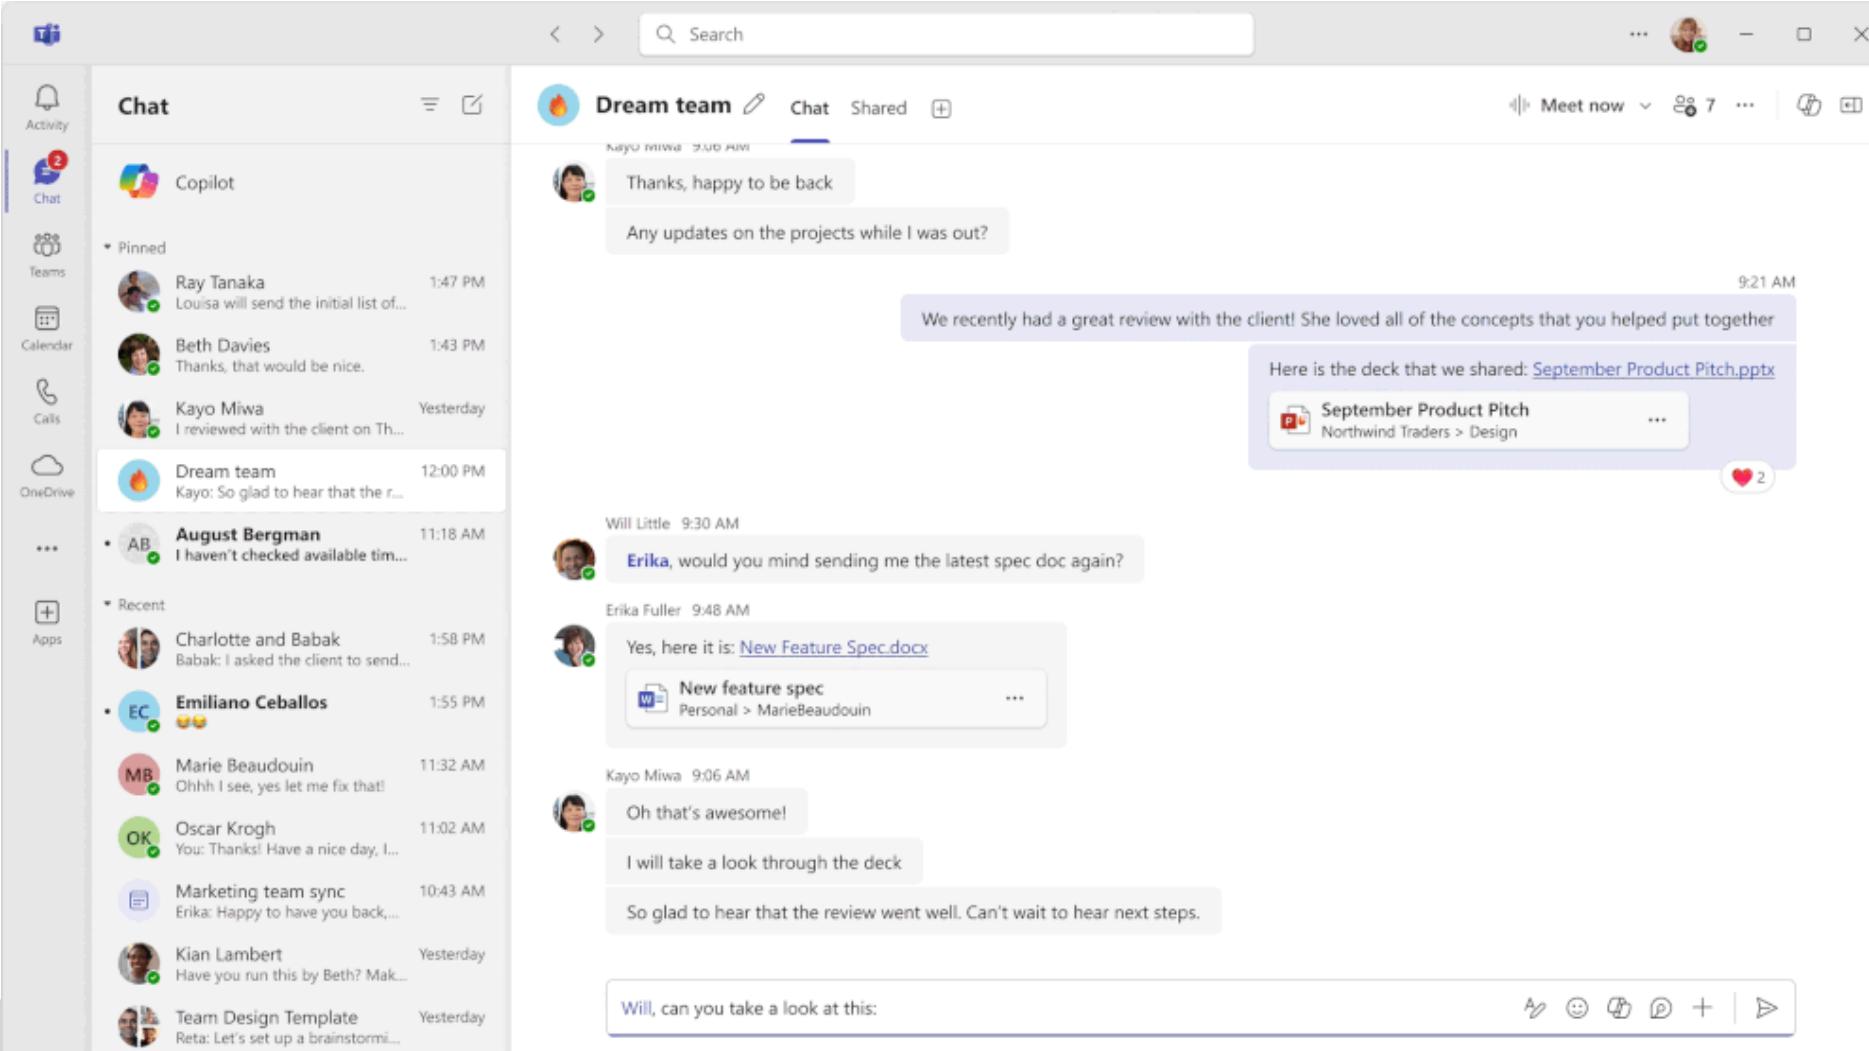

So glad to hear that the review went well. Can't wait to hear next steps.

Hey folks, I've tracked down the root cause of the error that we discussed in our last call. Here's what went wrong:

```
</> JavaScript
```

```
1 // Fast compile for development time
2 gulp.task('clean-client', util.rimraf('out'));
3 gulp.task('compile-client', ['clean-client'],
4 gulp.task('watch-client', ['clean-client'], compilation.watchTask('out', false));
```

Unfurling permalinks to see code previews

The screenshot shows a Microsoft Teams chat window for the 'Dream team' channel. The left sidebar lists various channels and recent conversations. The main area shows a message from Kayo Miwa at 9:21 AM: "We recently had a great review with the client! She loved all of the concepts that you helped put together". Below it, a message from Will Little at 9:30 AM asks Erika to send the latest spec doc again. Erika responds with a link to 'New Feature Spec.docx'. Kayo Miwa then comments that it's awesome and says she will take a look through the deck. The bottom message from Will asks if he can take a look at something.

Will, can you take a look at this:

...

Streamlined compose box / Enhancements for multi-tenant organization (MTO) users

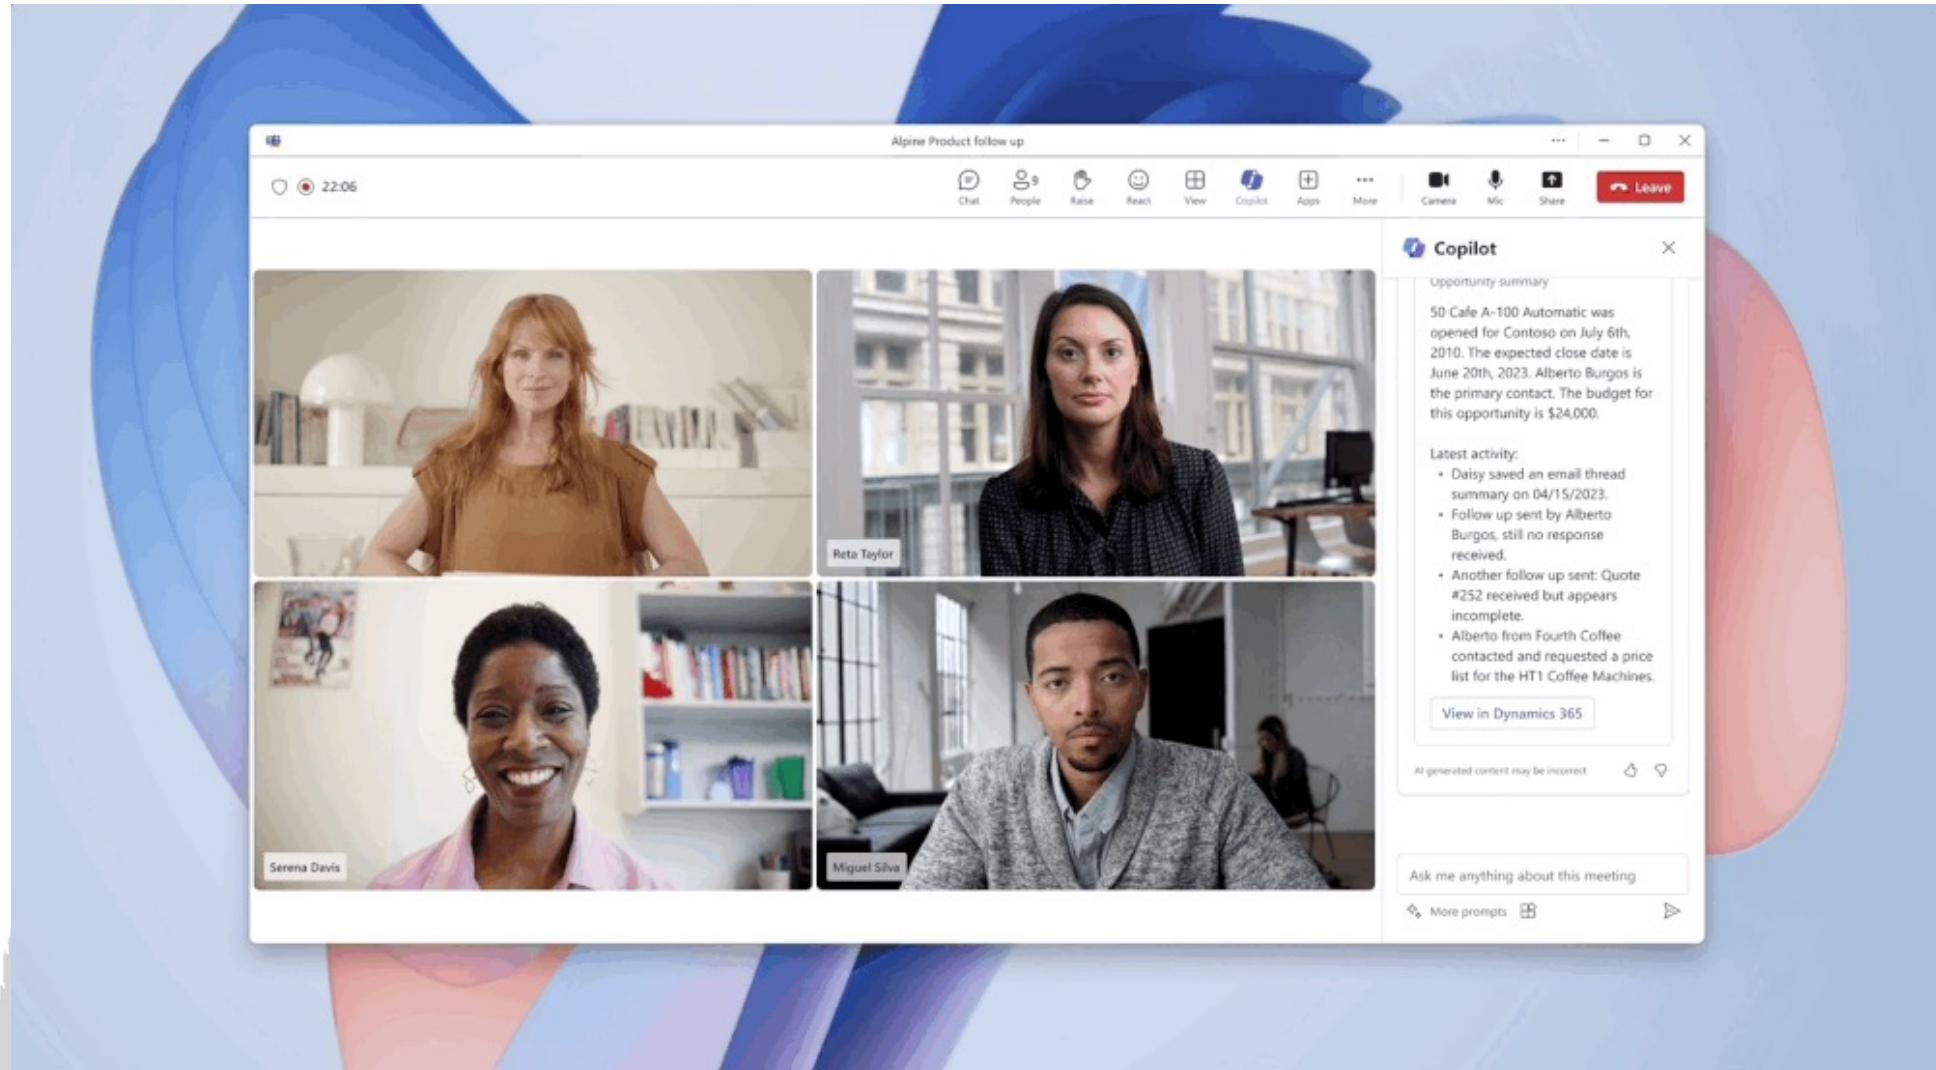

- Redesign of the compose box
 - Cleaner Layout
 - quick access to frequently used functions like message editing, emoji insertion, Loop components, and Copilot assistance
- MTO
 - The "External" label will be removed from the chat list and chat header
 - Users can view richer profiles for people from other MTO tenants
 - Users can share files with other MTO users in 1:1 and group chats
 - Users can access all their chat threads with new messages from one place
 - MTO admins now have an option of configuring text-based labels for each participating tenant, which will then be displayed for each user from respective tenants. [Learn more here.](#)

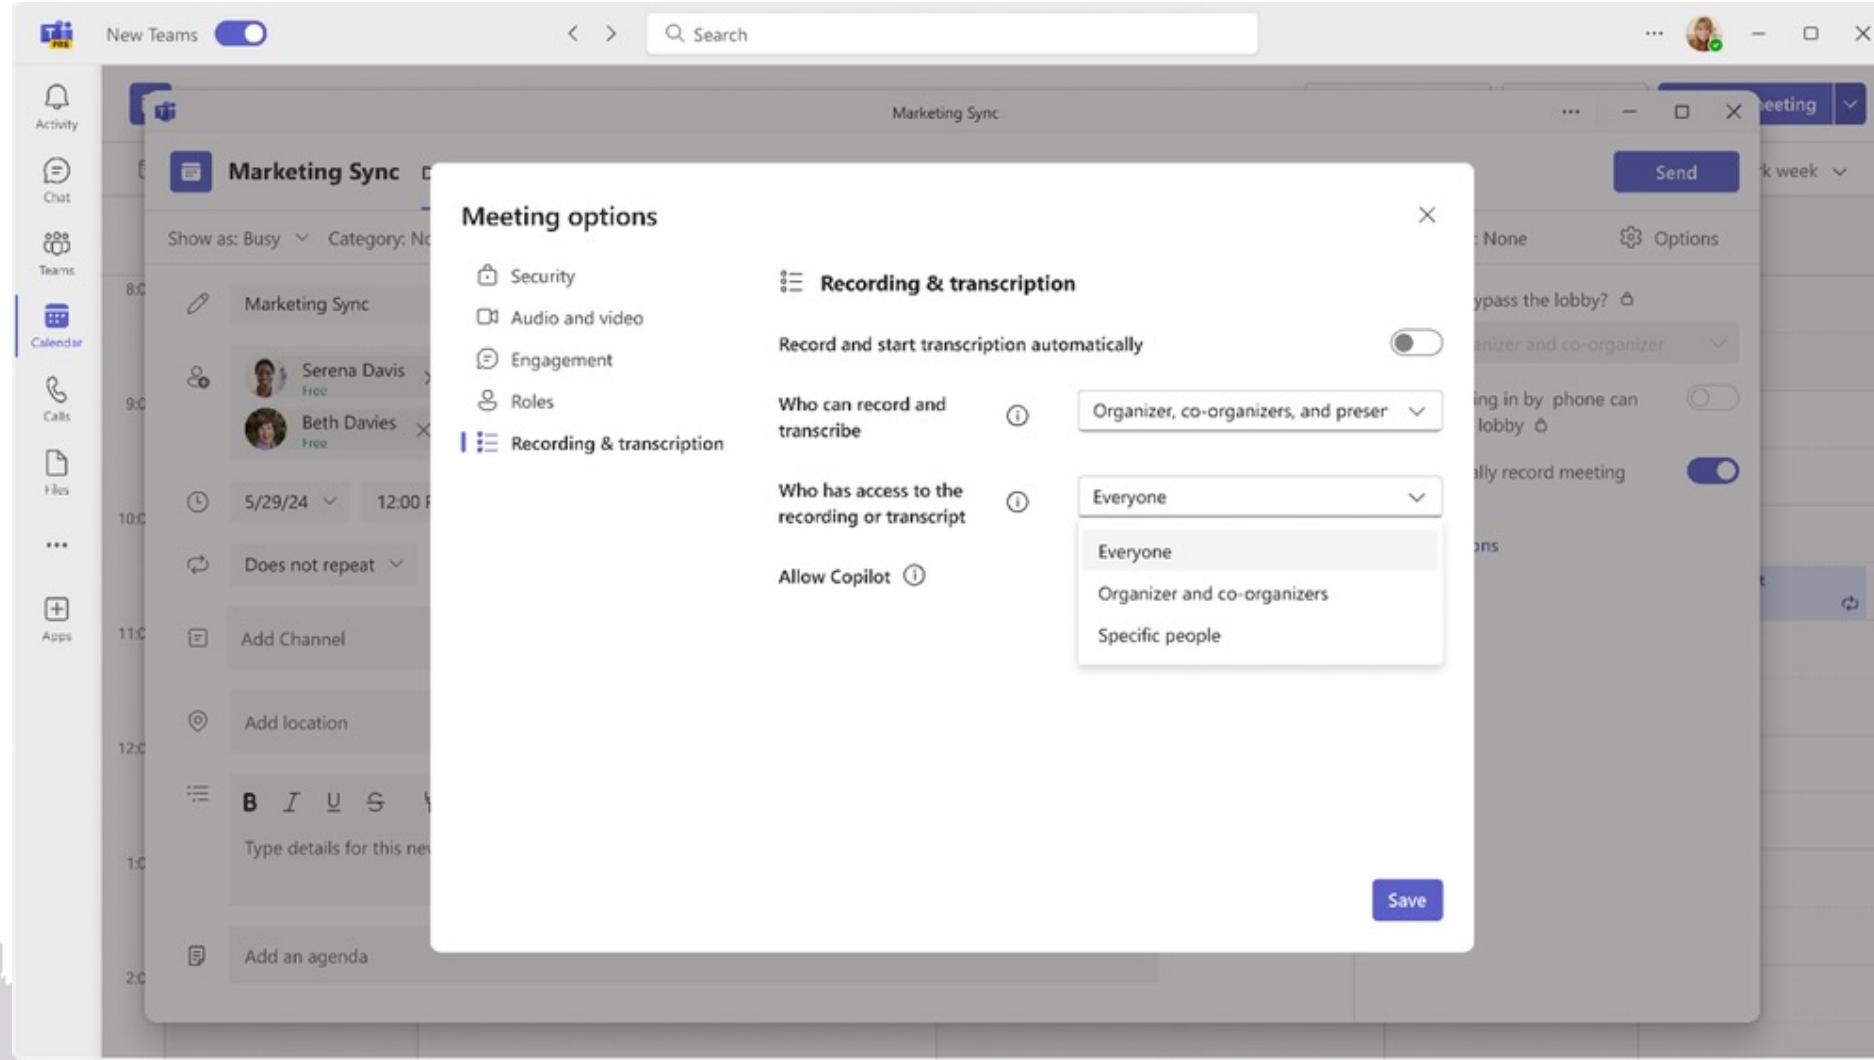

Meetings

Extend Copilot in Teams meetings capabilities with a Copilot for Sales plugin

Meeting organizers can manage access to meeting recording, transcript, and AI-generated insights

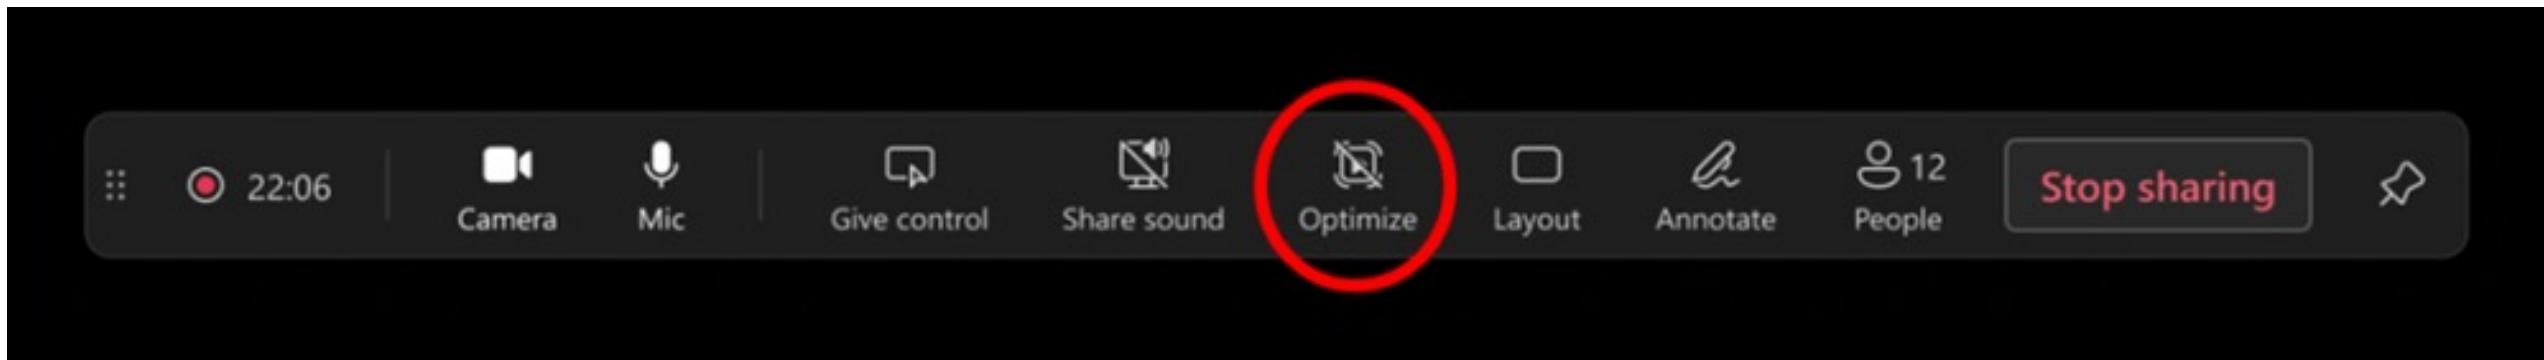

Meeting notes powered by Loop are available for Channel meetings

- Participants can collaborate
 - on the agenda
 - take notes together
 - track follow-up tasks in the same place

Presenters can move the presenter toolbar and optimize video in Microsoft Teams screensharing

Enhancements to meeting transcript file storage and management

- Meeting transcript files for transcription-only meetings will start saving to the OneDrive for Business folder of the meeting organizer (for scheduled meetings, Meet Now, Townhall, and Webinar).
- In the coming weeks, we will deprecate the storage of meeting transcript files in Exchange Online. But, starting with this rollout, all Teams client actions and entry points will only point to transcript file saved in the OneDrive for Business folder.
- Until the deprecation of storage in Exchange Online is complete in the coming weeks, with this rollout, when the meeting organizer or co-organizer deletes the transcript in the Microsoft Teams app, this will delete both copies of the transcript (from OneDrive for Business and Exchange Online).

Enhancements to meeting transcript file storage and management

- Default permissions are updated so that only meeting organizers and co-organizers have permission to download or delete the meeting transcript file, while meeting participants only have viewing permissions for the transcript in Teams client and Stream.
- Meeting organizers can update file permissions in Stream and select which participants have permission to download, view, and edit the transcript in Stream.
- The existing admin policy for default expiration time for meeting recordings will now also apply to the meeting transcript files stored in OneDrive for Business for transcription-only meetings.
- Customers who use Microsoft Purview can now use auto-apply retention label policies (requires one of the E5/A5/G5 SKUs) to set explicit retention & expiration controls on Teams transcripts stored in OneDrive for Business in addition to recording.

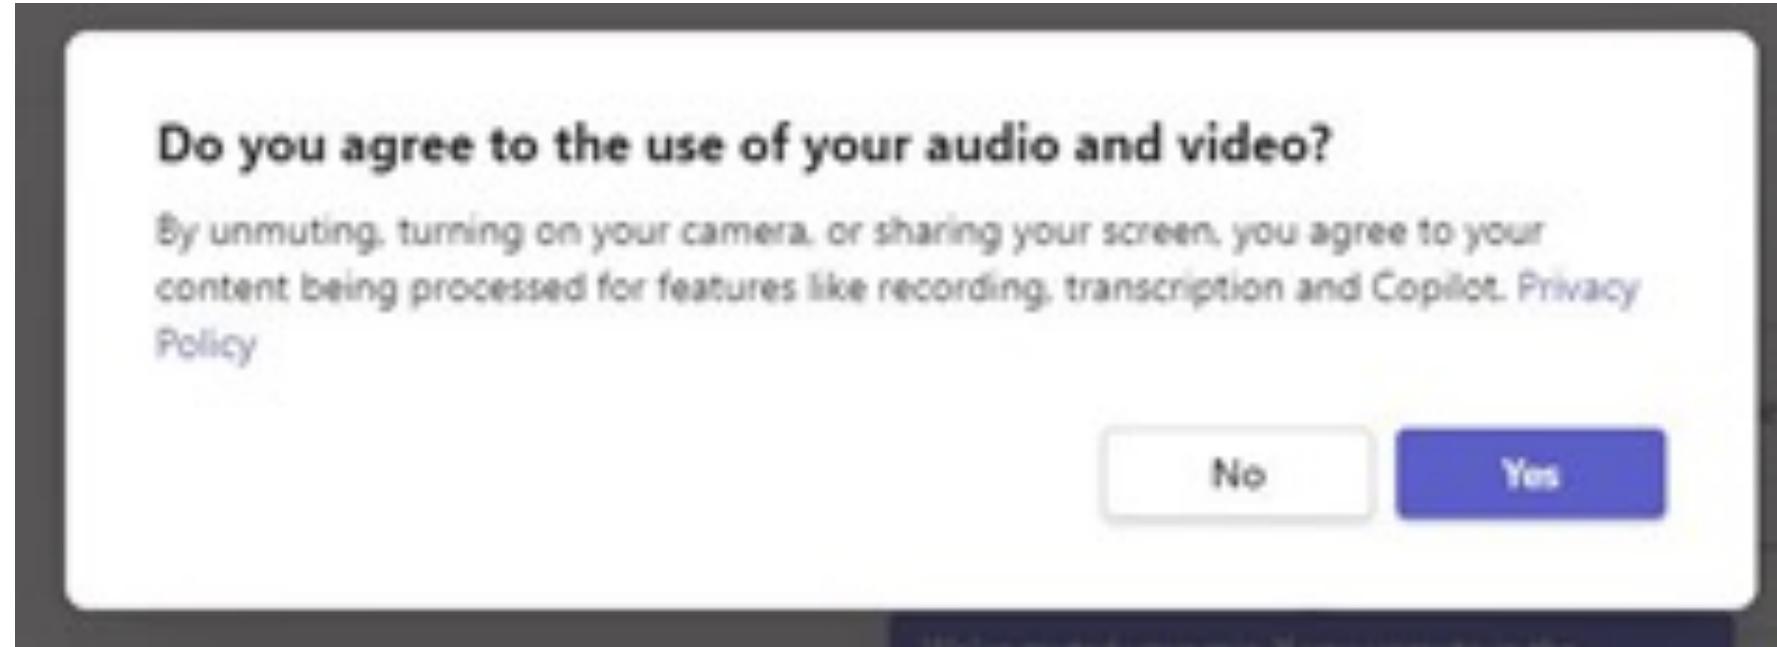

Expanded admin policy for who can download meeting transcripts

- The existing admin policy to block permissions for the download of meeting recordings is expanding to include blocking permissions to download meeting transcript files (stored in OneDrive for Business) for any users within the tenant.

Require participant consent for meeting transcription

Mute and unmute yourself from Windows taskbar in Microsoft Teams

MÜNCHEN

SMS notifications for staff-scheduled appointments in Bookings

- You can now set up SMS text notifications in Microsoft Bookings to be sent to the person for whom an appointment is scheduled

New avatar wardrobe options for Mesh in Teams / Mac access for Mesh in Teams

- Mac access for Mesh in Teams – GA in June

Disable social share of Teams webinars for individual event attendees

- prevent attendees from sharing the webinar event page to social networking sites for public events post-registration

Event access

Public
The event is open to anyone. Choose this if there will be attendees outside your organization.

Your organization
The event is only open to people in your organization and guests of your organization.

1  Allow sharing to social media from event site

➤ **Attendee experience**
Registered attendees will join the session with their cameras and mics off. They can participate via chat, reactions, and Q&A. Organizers choose when to let attendees turn on their cameras or unmute.

Teams Rooms and Devices

MÜNCHEN

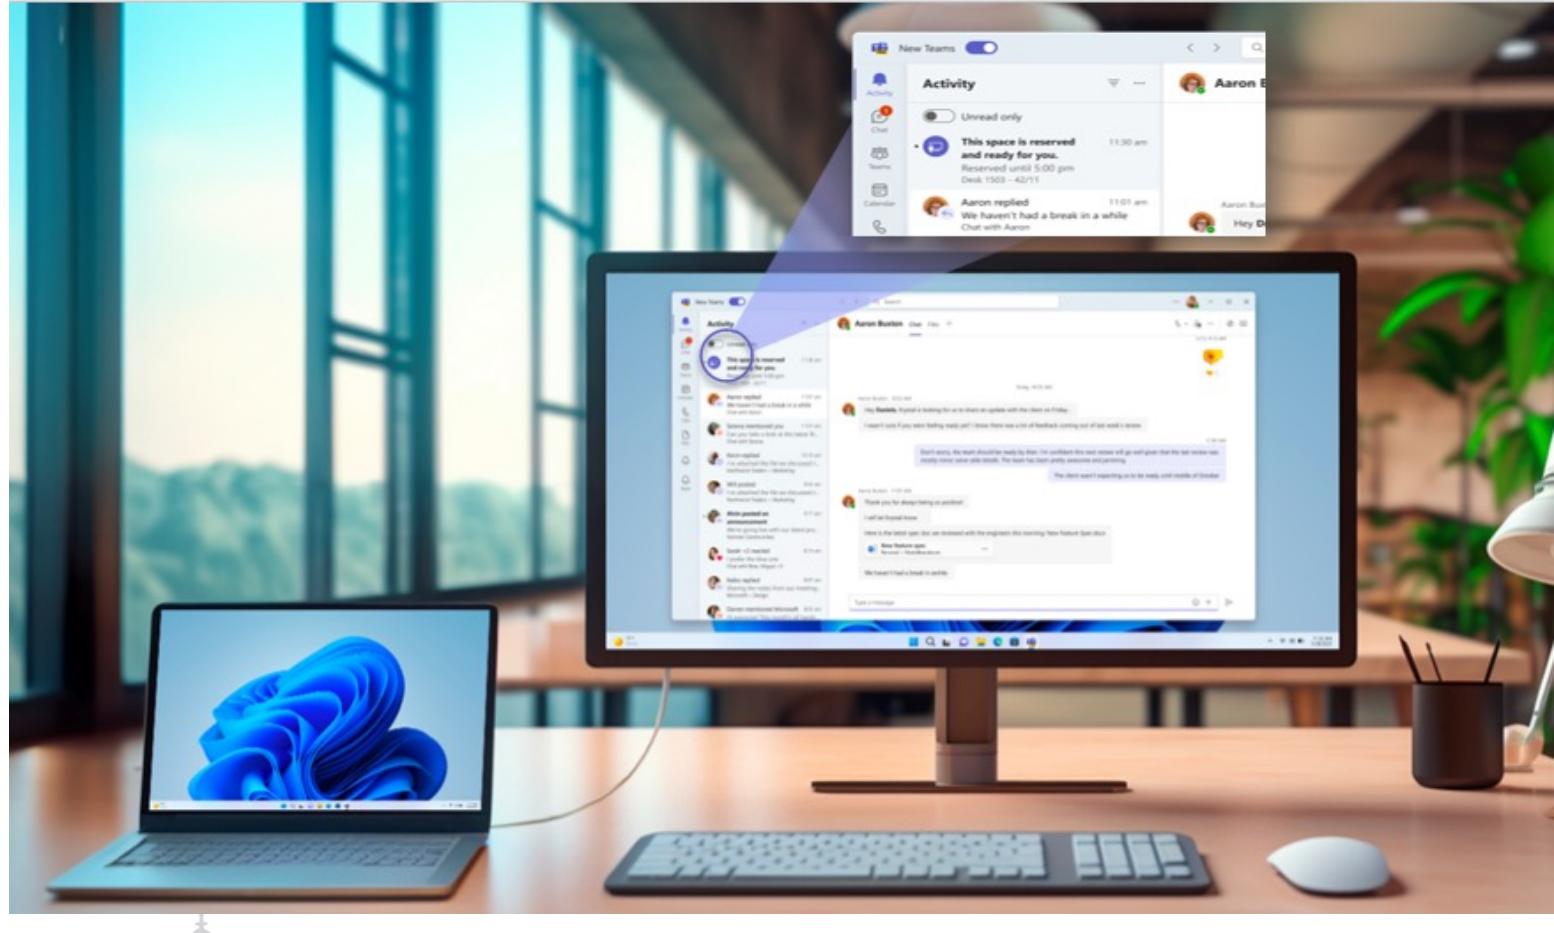

Multi-panel check-in on Teams panels

conference room with multiple panels, check-in and room release are synchronized across all panels

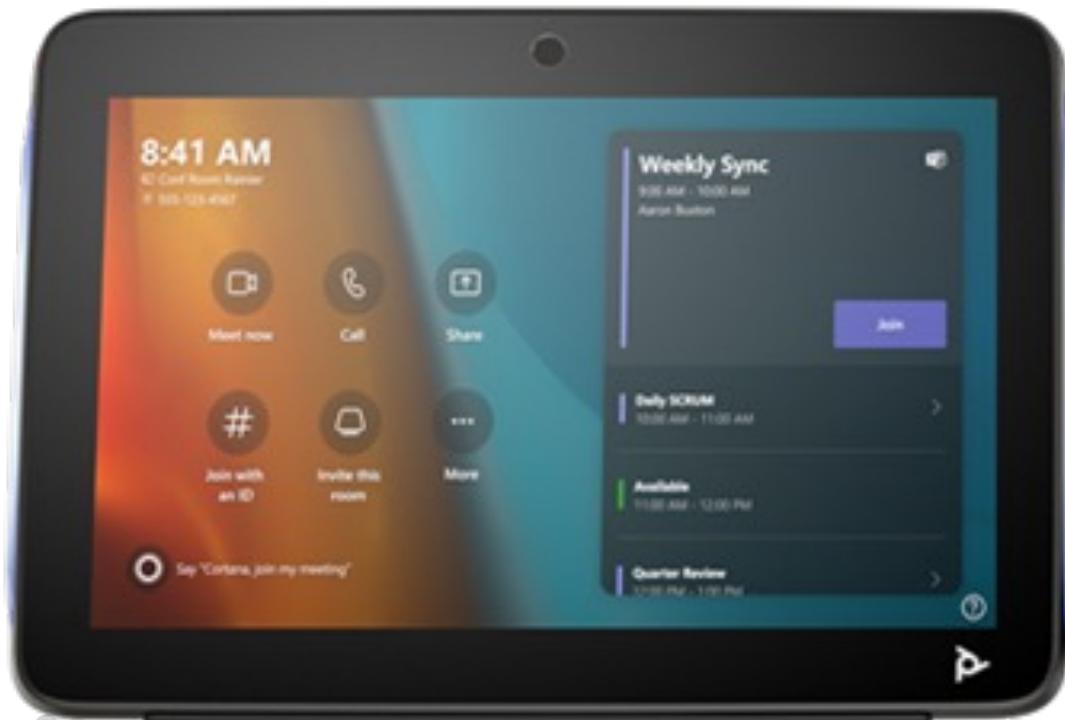

Bookable desks

- This feature enhances hot desking or hoteling office experiences
- track desk peripherals in the Inventory provided in the Microsoft Teams Rooms Pro Management portal

Call recap

Only the transcript of this call can be recapped

Here is a recap of the call:

- Serena suggests planning a customer appreciation event to strengthen relationships
- Daniela agrees and suggests a reception with light refreshments and beverages
- They make a plan to sending out invitations, booking the venue, arranging for entertainment, and preparing gift bags

Follow-up actions include:

- Book the Downtown Marriot hotel
- Research caterers and get quotes for the event
- Send an email with all the details to the team

- [how to configure music on hold](#)

Easily manage Do Not Disturb presence status when screen sharing

Do not disturb

You can still receive notifications from people who have priority access when your status is set to Do not disturb.

[Manage priority access](#)

- Set my status to do not disturb when I'm sharing my screen

Turning this setting off will change your status to busy and let you receive calls, as well as urgent and priority contact notifications.

Calling features and contact management on non-touch phones devices

- Expanding the capabilities available on non-touch phone devices, adding support for calling features
 - park/unpark calls
 - busy-on-busy end user settings
 - auto restart
 - the ability to manage contacts and contact groups

Platform

Platform

- Simplifying the personal app header
- Easier discoverability of Workflows templates
- New contact center solution certifications
