Chat and Collaboration

MÜNCHEN

Slash commands

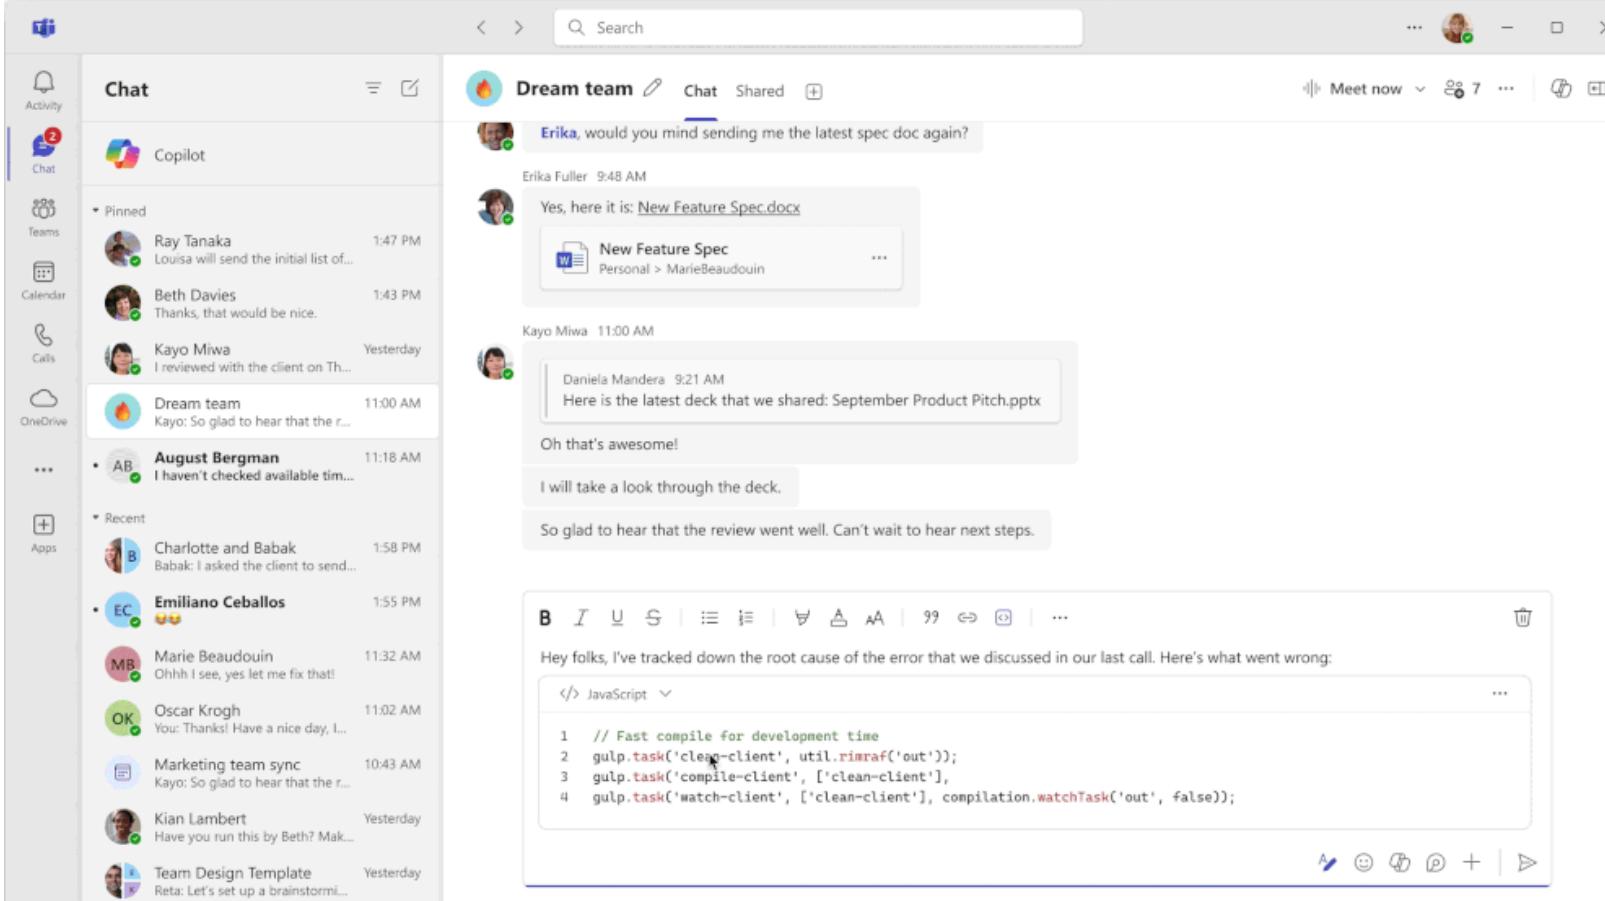

The screenshot shows the Microsoft Teams application window. On the left is the sidebar with icons for Activity, Chat (with 2 notifications), Teams, Calendar, Calls, OneDrive, and Apps. The main area is the 'Chat' tab, specifically the 'Dream team' channel. The channel has a pinned message from Ray Tanaka and a recent message from Kayo Miwa. A large image of colorful buildings in Cinque Terre is displayed. Other messages in the channel include:

- Kayo Miwa 9:05 AM: Yes!! We went to Cinque Terre, I absolutely loved the colorful buildings.
- Will Little 9:06 AM: Kayo that looks so fun!
- Kayo Miwa 9:06 AM: It was! We were able to hike through the first four cities.
- Erika Fuller 11:32 AM: The views were stunning
- Erika Fuller 11:32 AM: Happy to have you back, hope you had a restful time off.

At the bottom of the screen, there is a watermark of the Munich skyline and the word "MÜNCHEN".

Co-edit code blocks

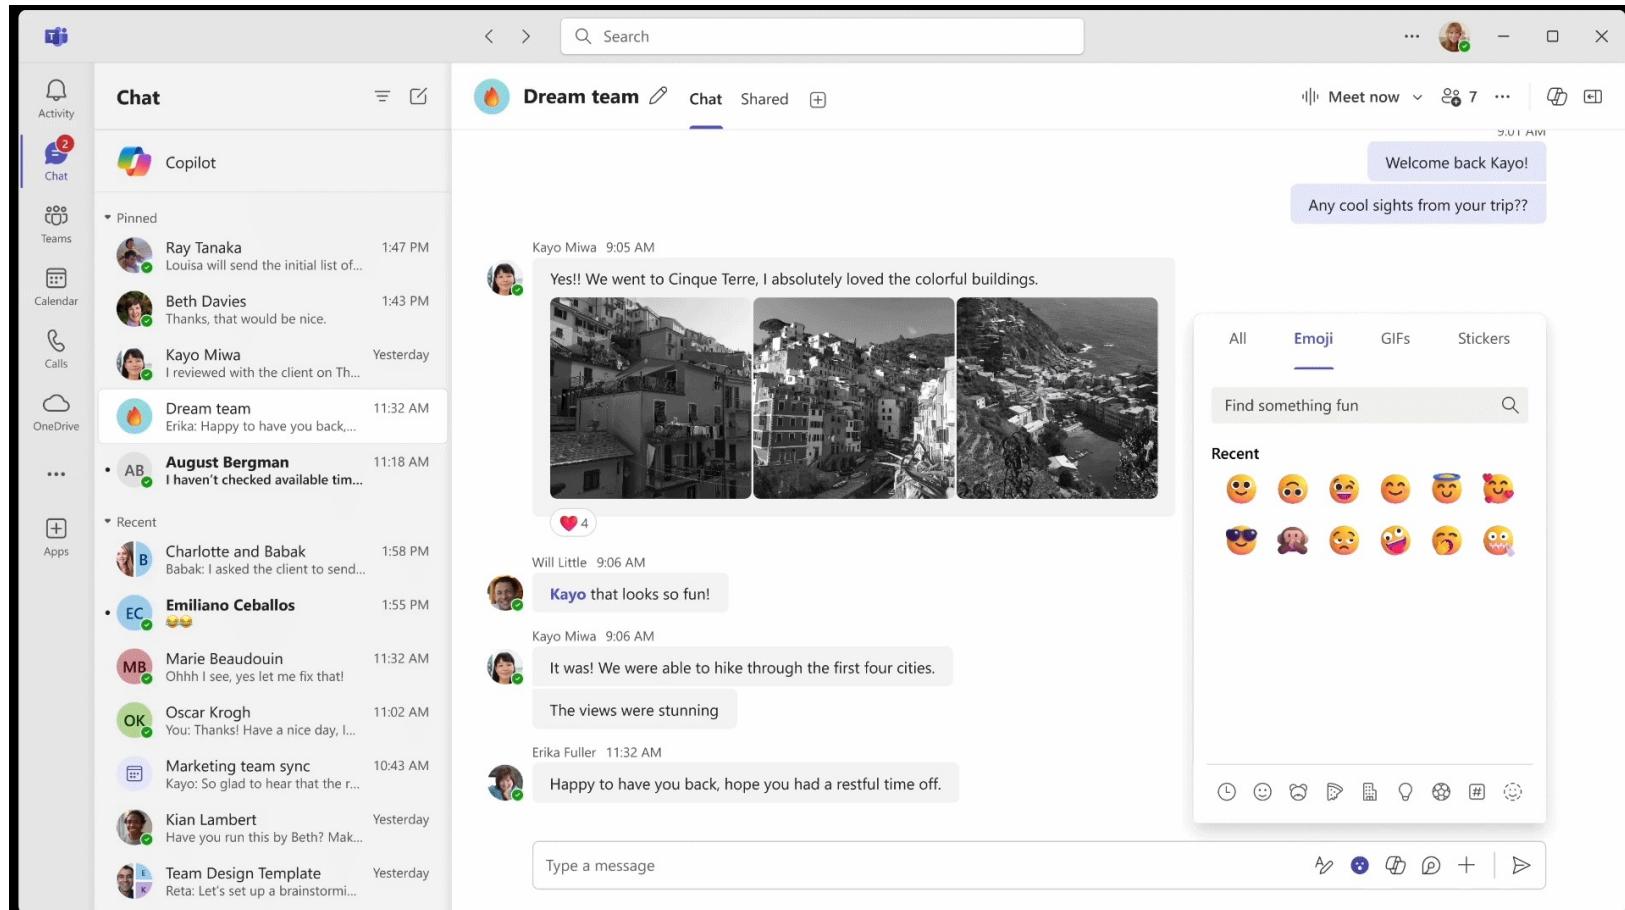

The screenshot shows a Microsoft Teams chat window titled "Dream team". The left sidebar lists various channels and recent conversations. The main area shows a message from Erika Fuller at 9:48 AM asking for the latest spec doc. Kayo Miwa responds with a file attachment named "New Feature Spec.docx" at 11:00 AM. Daniel Mandera shares a presentation titled "September Product Pitch.pptx" at 9:21 AM. August Bergman replies with "Oh that's awesome!" and "I will take a look through the deck." A message from Kian Lambert at 11:32 AM expresses excitement about tracking down an error root cause. The bottom of the screen displays a code editor interface with a snippet of JavaScript:

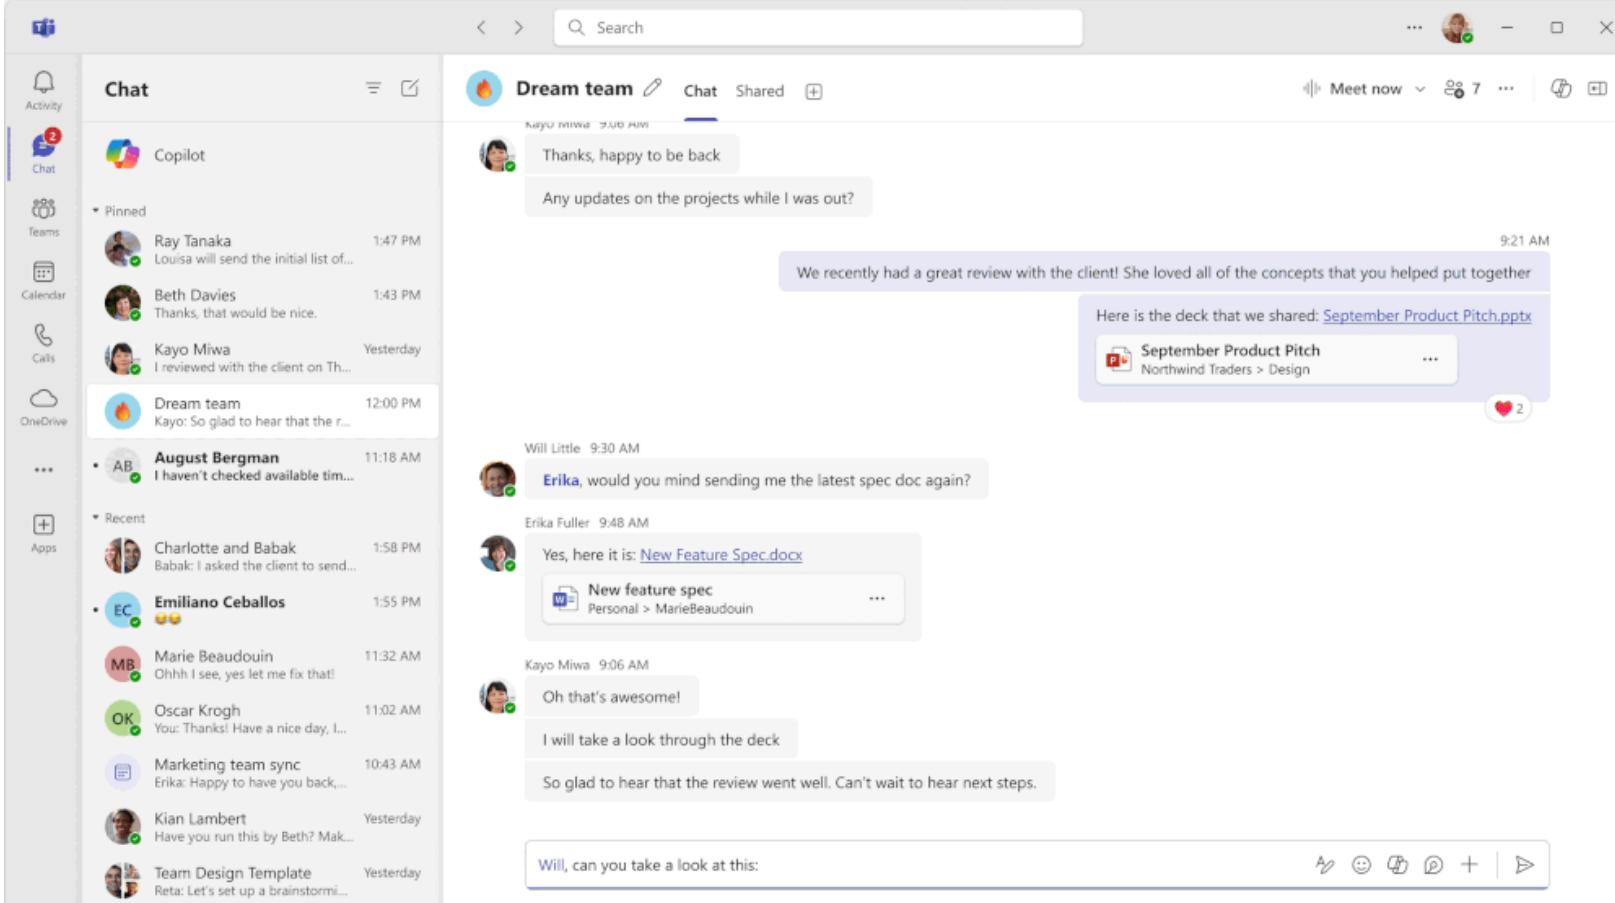

```
// Fast compile for development time
gulp.task('clean-client', util.rimraf('out'));
gulp.task('compile-client', ['clean-client'],
  compilation.watchTask('out', false));
```

Custom emojis and reactions

Unfurling permalinks to see code previews

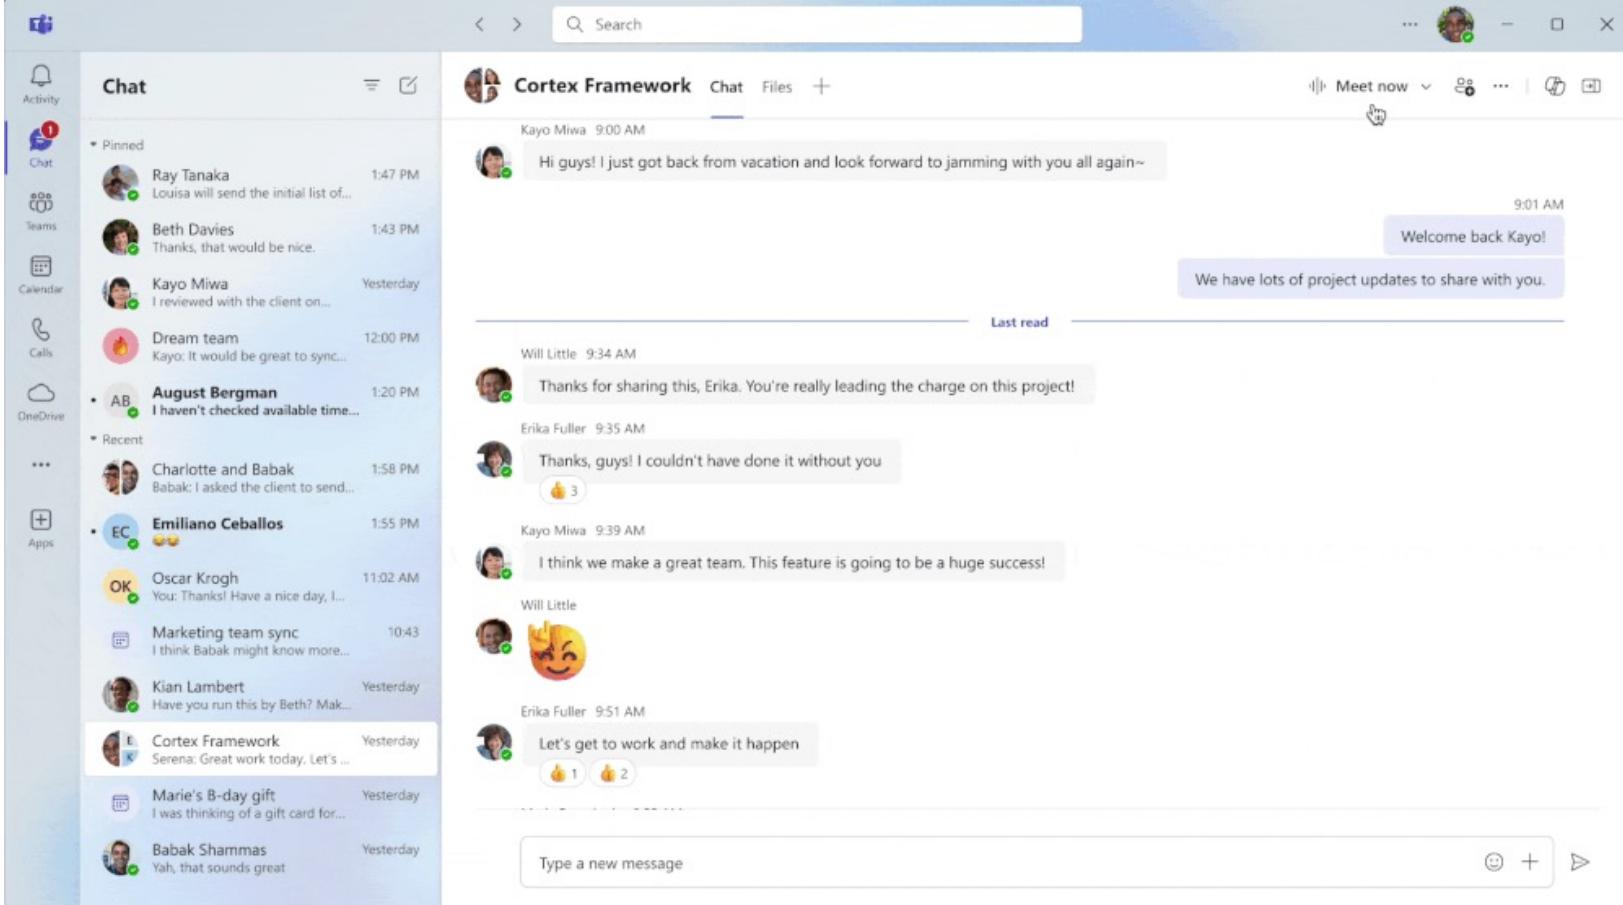

The screenshot shows a Microsoft Teams chat window titled "Dream team". The left sidebar lists various channels: Activity, Chat (with 2 notifications), Teams, Calendar, Calls, OneDrive, and Apps. The main area shows a conversation between the "Dream team" channel and several users.

Key messages include:

- Kayo Miwa: Thanks, happy to be back
- Kayo Miwa: Any updates on the projects while I was out?
- Kayo Miwa: We recently had a great review with the client! She loved all of the concepts that you helped put together
- Kayo Miwa: Here is the deck that we shared: [September Product Pitch.pptx](#)
- Will Little: Erika, would you mind sending me the latest spec doc again?
- Erika Fuller: Yes, here it is: [New Feature Spec.docx](#)
- Kayo Miwa: Oh that's awesome!
- Kayo Miwa: I will take a look through the deck
- Kayo Miwa: So glad to hear that the review went well. Can't wait to hear next steps.
- Will: Will, can you take a look at this:

Meet now in group chat

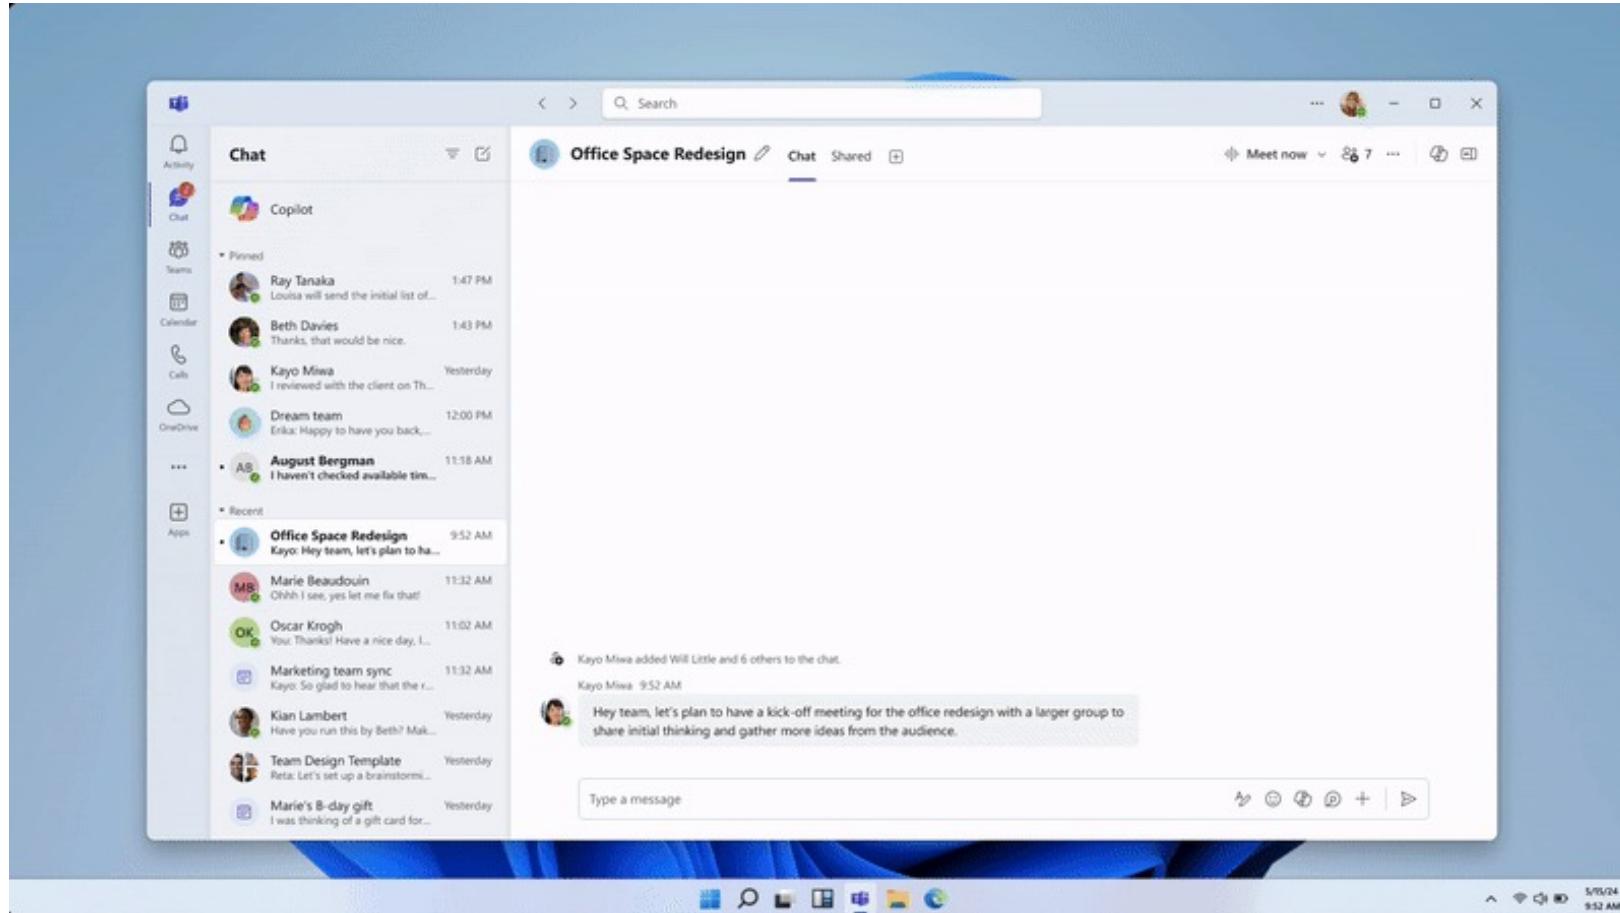

The screenshot shows the Microsoft Teams Chat interface. On the left, there's a sidebar with icons for Activity, Chat (highlighted with a red dot), Teams, Calendar, Calls, OneDrive, and Apps. The main area shows a group chat in the "Cortex Framework" channel. The messages are:

- Kayo Miwa 9:00 AM: Hi guys! I just got back from vacation and look forward to jamming with you all again~
- 9:01 AM: Welcome back Kayo!
- Will Little 9:34 AM: We have lots of project updates to share with you.
- Will Little 9:34 AM: Thanks for sharing this, Erika. You're really leading the charge on this project!
- Erika Fuller 9:35 AM: Thanks, guys! I couldn't have done it without you
- Erika Fuller 9:35 AM: 3
- Kayo Miwa 9:39 AM: I think we make a great team. This feature is going to be a huge success!
- Will Little 9:43 AM: 😊
- Erika Fuller 9:51 AM: Let's get to work and make it happen
- Erika Fuller 9:51 AM: 1 2

At the bottom, there's a message input field: "Type a new message".

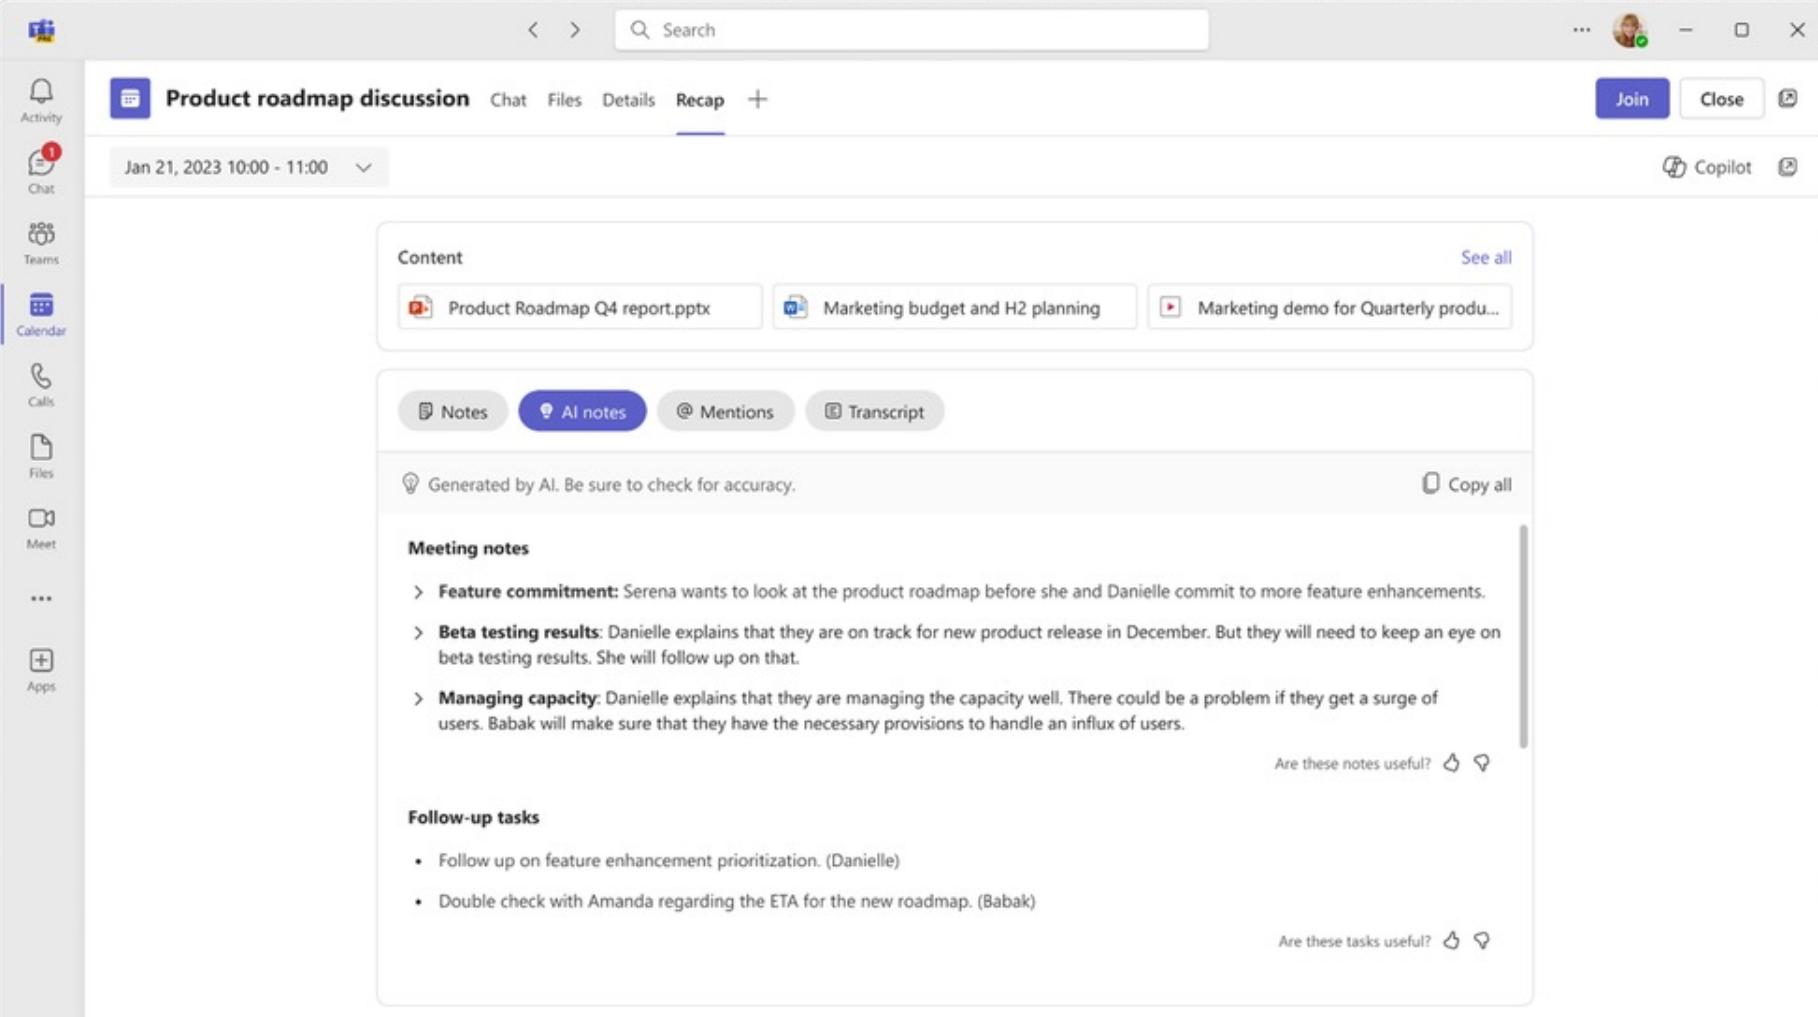

Generate images with Microsoft Designer in chat

Meetings

Intelligent recap for transcription-only meetings

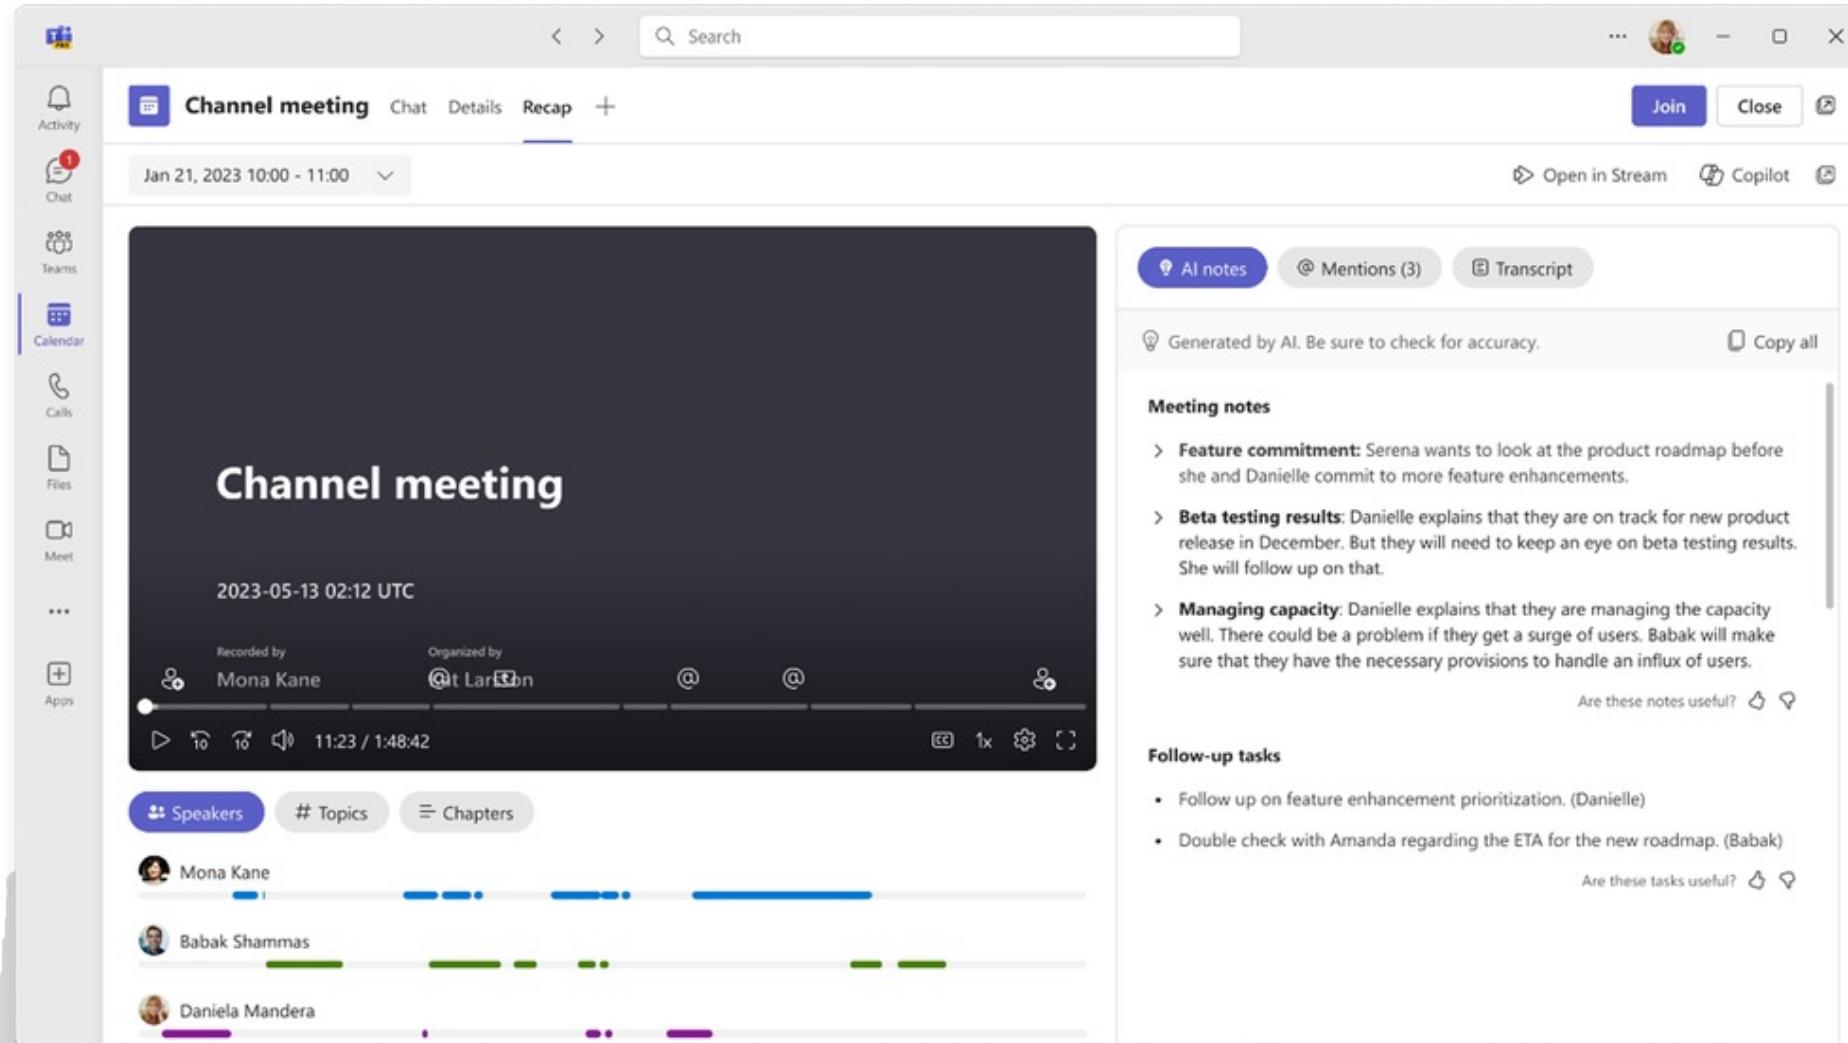

The screenshot shows a Microsoft Teams meeting recap for a "Product roadmap discussion" on Jan 21, 2023, from 10:00 - 11:00. The recap is generated by AI and includes the following sections:

- Content:** Includes links to "Product Roadmap Q4 report.pptx", "Marketing budget and H2 planning", and "Marketing demo for Quarterly produ...".
- Meeting notes:** Lists three main points:
 - Feature commitment:** Serena wants to look at the product roadmap before she and Danielle commit to more feature enhancements.
 - Beta testing results:** Danielle explains that they are on track for new product release in December. But they will need to keep an eye on beta testing results. She will follow up on that.
 - Managing capacity:** Danielle explains that they are managing the capacity well. There could be a problem if they get a surge of users. Babak will make sure that they have the necessary provisions to handle an influx of users.
- Follow-up tasks:**
 - Follow up on feature enhancement prioritization. (Danielle)
 - Double check with Amanda regarding the ETA for the new roadmap. (Babak)

At the bottom of each section, there are "Are these notes useful?" and "Are these tasks useful?" buttons with thumbs-up and thumbs-down icons.

Intelligent recap support for scheduled channel meetings

The screenshot shows the Microsoft Teams Recap page for a scheduled channel meeting. The meeting was set for Jan 21, 2023, from 10:00 - 11:00. The recap page includes a transcript generated by AI, meeting notes, and follow-up tasks.

Meeting Details:

- Channel meeting
- Jan 21, 2023 10:00 - 11:00
- Join button
- Close button
- Open in Stream button
- Copilot button

Recap Section:

- AI notes button
- Mentions (3) button
- Transcript button
- Generated by AI. Be sure to check for accuracy.
- Copy all button

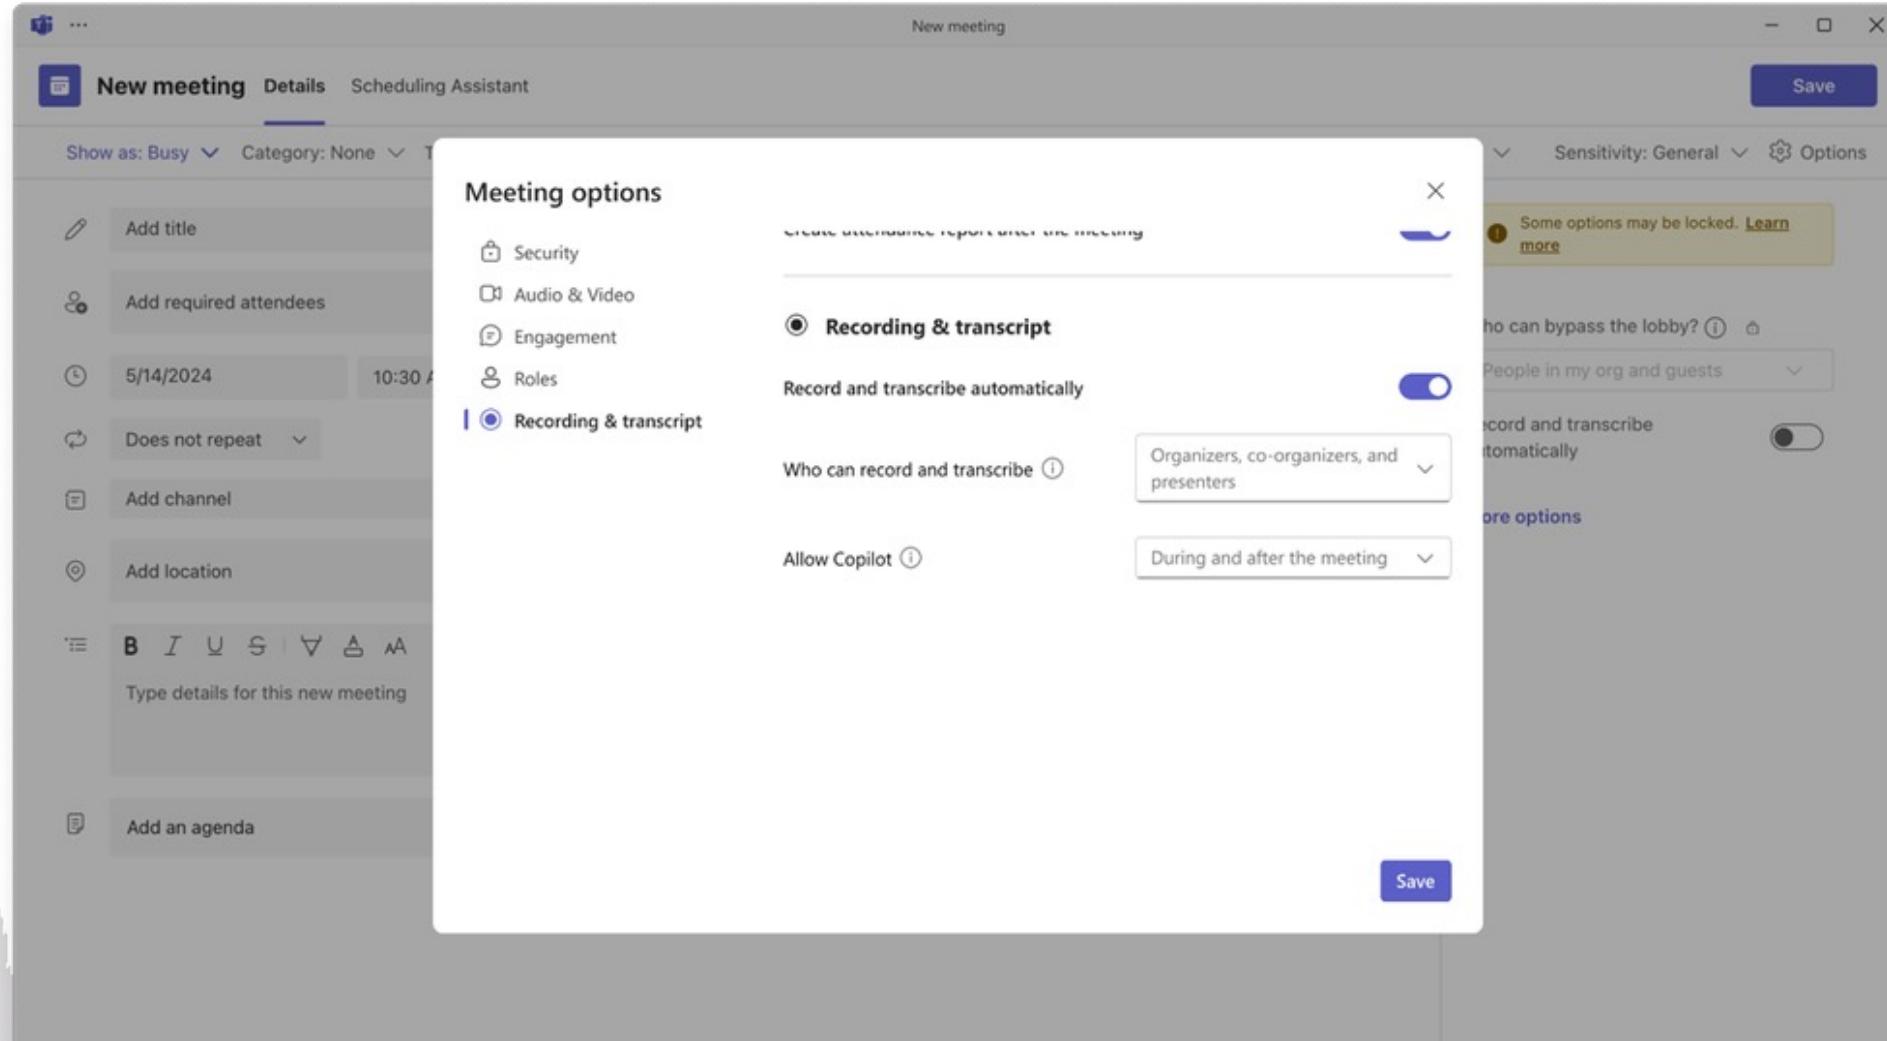

Meeting notes:

- Feature commitment: Serena wants to look at the product roadmap before she and Danielle commit to more feature enhancements.
- Beta testing results: Danielle explains that they are on track for new product release in December. But they will need to keep an eye on beta testing results. She will follow up on that.
- Managing capacity: Danielle explains that they are managing the capacity well. There could be a problem if they get a surge of users. Babak will make sure that they have the necessary provisions to handle an influx of users.

Follow-up tasks:

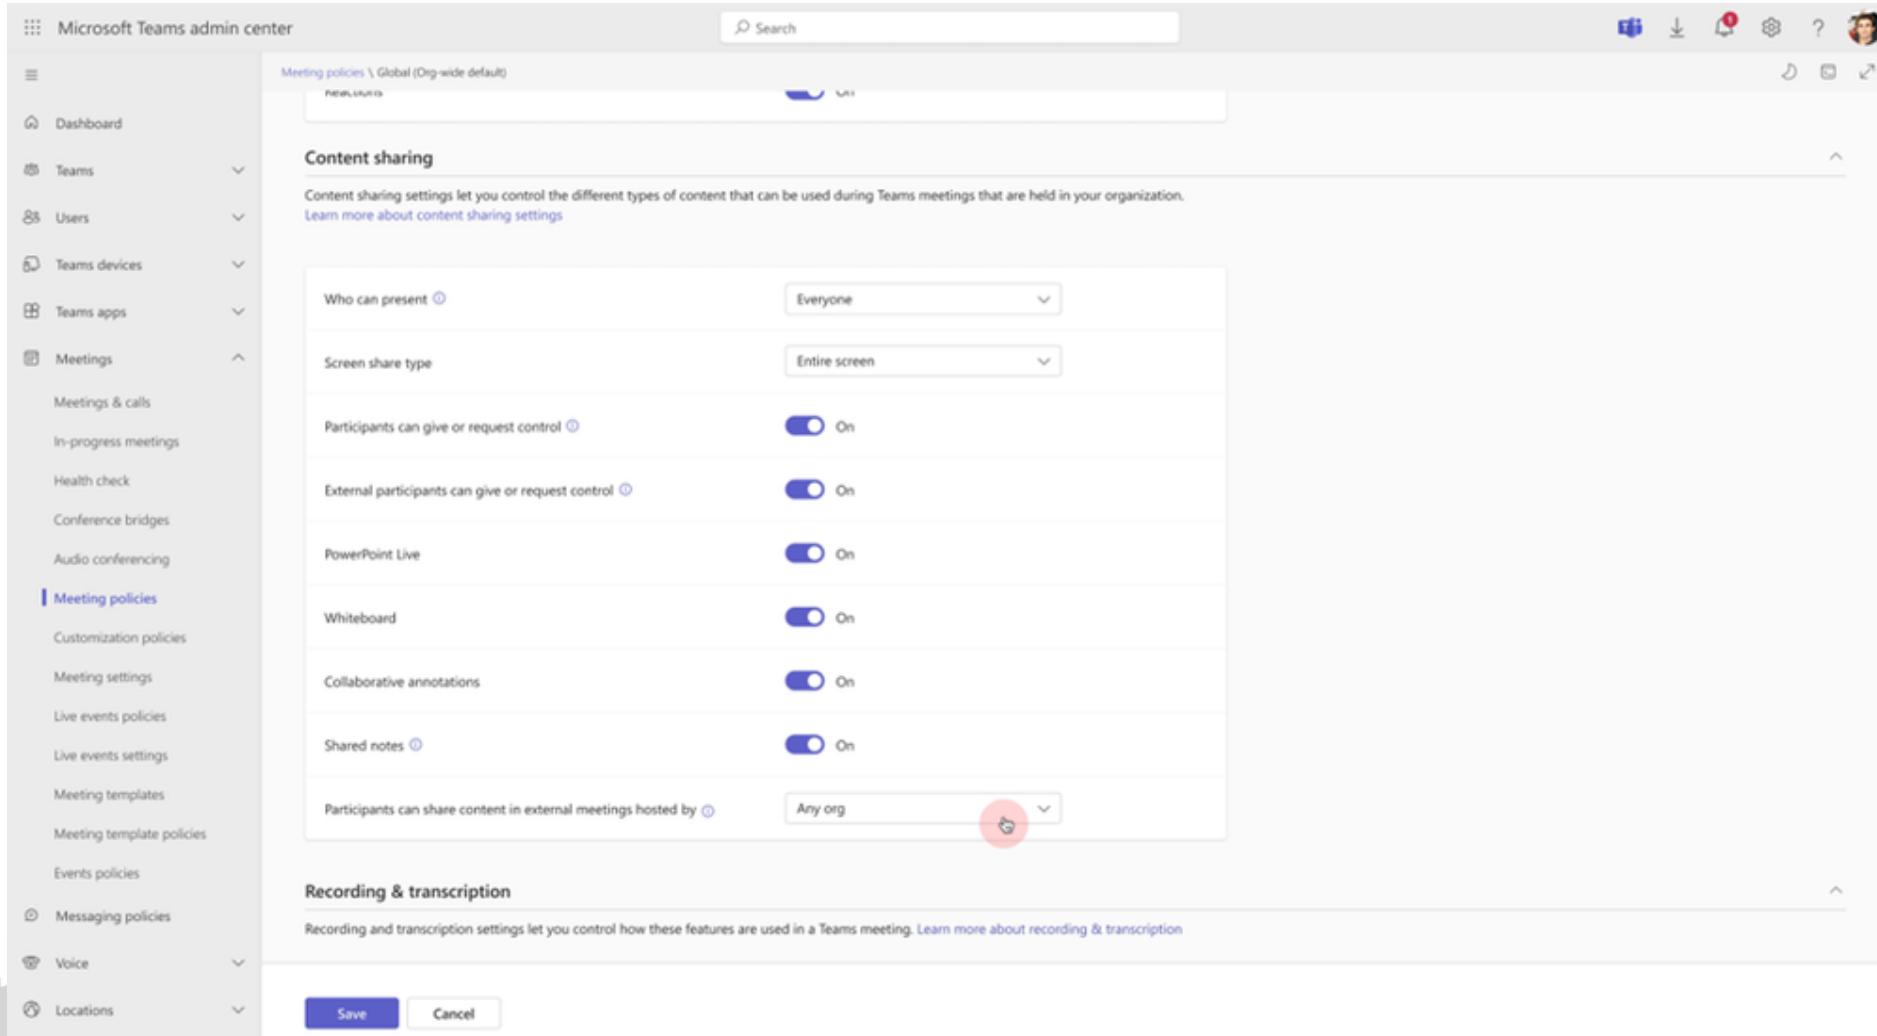

- Follow up on feature enhancement prioritization. (Danielle)
- Double check with Amanda regarding the ETA for the new roadmap. (Babak)

Manage who can record and transcribe meetings

The screenshot shows the Microsoft Teams 'New meeting' dialog box. On the left, there's a sidebar with options like 'Add title', 'Add required attendees', and '5/14/2024'. The main area has tabs for 'Details' (selected), 'Security', 'Audio & Video', 'Engagement', 'Roles', and 'Recording & transcript'. Under 'Recording & transcript', the 'Recording & transcript' section is selected. It includes a toggle switch for 'Record and transcribe automatically' (which is turned on) and dropdown menus for 'Who can record and transcribe' (set to 'Organizers, co-organizers, and presenters') and 'Allow Copilot' (set to 'During and after the meeting'). A note on the right says 'Some options may be locked. Learn more'. At the bottom right of the dialog is a 'Save' button.

Disable screen share to prevent leakage of information

The screenshot shows the Microsoft Teams admin center interface, specifically the 'Meeting policies' section under 'Global (Org-wide default)'. The left sidebar includes links for Dashboard, Teams, Users, Teams devices, Teams apps, Meetings, Meeting policies (which is selected), Customization policies, Meeting settings, Live events policies, Live events settings, Meeting templates, Meeting template policies, Events policies, Messaging policies, Voice, Locations, and Policy packages.

The main content area is titled 'Content sharing' and contains the following settings:

- Who can present:** Everyone
- Screen share type:** Entire screen
- Participants can give or request control:** On
- External participants can give or request control:** On
- PowerPoint Live:** On
- Whiteboard:** On
- Collaborative annotations:** On
- Shared notes:** On

Below these settings, there is a dropdown menu labeled 'Participants can share content in external meetings hosted by' with the option 'Any org' selected. A red circle highlights this dropdown menu.

At the bottom of the page are 'Save' and 'Cancel' buttons.

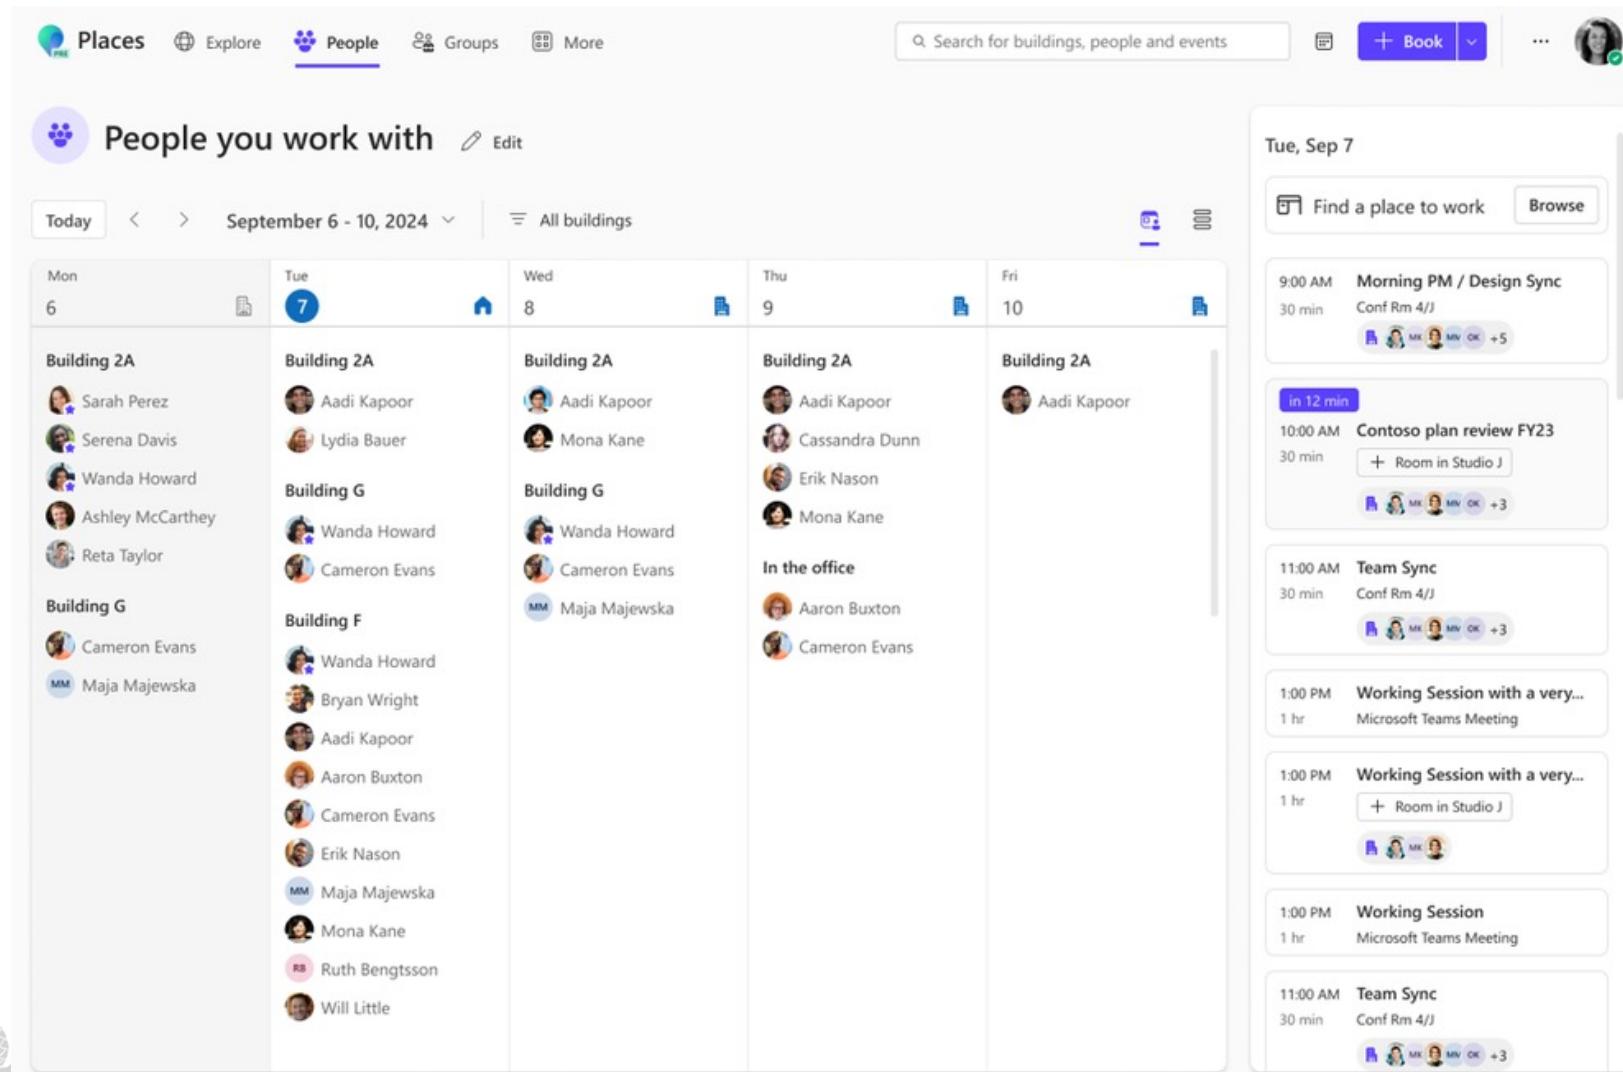

Places

MÜNCHEN

Microsoft Places public preview / Location Plan

- Public preview available now

The screenshot shows the Microsoft Places public preview interface. At the top, there's a navigation bar with 'Places' (highlighted in green), 'Explore', 'People' (highlighted in blue), 'Groups', and 'More'. A search bar says 'Search for buildings, people and events'. To the right are 'Book' and '...'. On the far right is a user profile icon.

The main area is titled 'People you work with' with an 'Edit' button. It shows a calendar for 'September 6 - 10, 2024'. The days are labeled 'Today', 'September 6 - 10, 2024', and 'All buildings'. The days of the week are Mon, Tue, Wed, Thu, Fri. Each day has a grid of locations:

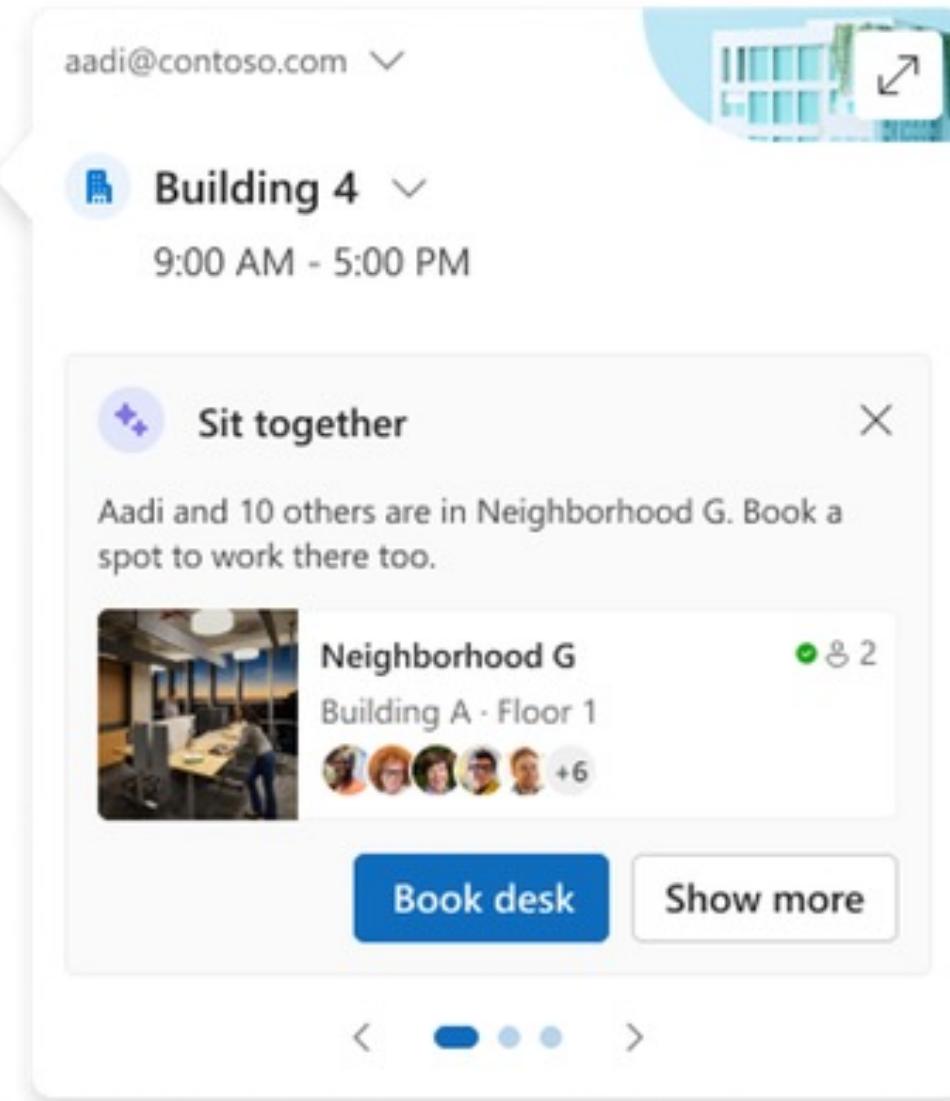

- Tue:** Building 2A, Building 2A, Building 2A, Building 2A, Building 2A
- Wed:** Building G, Building G, Building G, In the office
- Thu:** Building G, Building G, Building G, In the office
- Fri:** Building G, Building G, Building G, In the office

Each location entry includes a small profile picture and the name of the person assigned to that location. To the right of the calendar is a vertical sidebar for 'Tue, Sep 7' with a 'Find a place to work' button and a 'Browse' button. Below these are several scheduled items with icons and names:

- 9:00 AM Morning PM / Design Sync (30 min) Conf Rm 4/J (MK, MV, OK, +5)
- 10:00 AM Contoso plan review FY23 (30 min) Room in Studio J (MK, MV, OK, +3)
- 11:00 AM Team Sync (30 min) Conf Rm 4/J (MK, MV, OK, +3)
- 1:00 PM Working Session with a very... (1 hr) Microsoft Teams Meeting (Aaron Buxton, Cameron Evans)
- 1:00 PM Working Session with a very... (1 hr) Room in Studio J (MK, MV, OK, +3)
- 1:00 PM Working Session (1 hr) Microsoft Teams Meeting (Aaron Buxton, Cameron Evans)
- 11:00 AM Team Sync (30 min) Conf Rm 4/J (MK, MV, OK, +3)

Expanded presence

The screenshot shows the Microsoft Teams Chat interface for the "Contoso Marketing" team. On the left, the sidebar displays pinned and recent conversations. The main chat area shows messages from Kayo Miwa, Beth Davies, Marie Beaudouin, and Aadi Kapoor. A message from Beth Davies is highlighted with a callout bubble. On the right, a "Participants" pane is open, showing a list of team members with their status (e.g., In Building 3, Online). A "Nearby" tab is selected, showing Aaron Buxton and Allan Munger as nearby users. Buttons for "Add people" and "Leave" are also visible.

Enhancements to custom calling experiences connected to Microsoft Teams (PPT Live)

Enhancements to custom calling experiences connected to Microsoft Teams (Live Reactions)

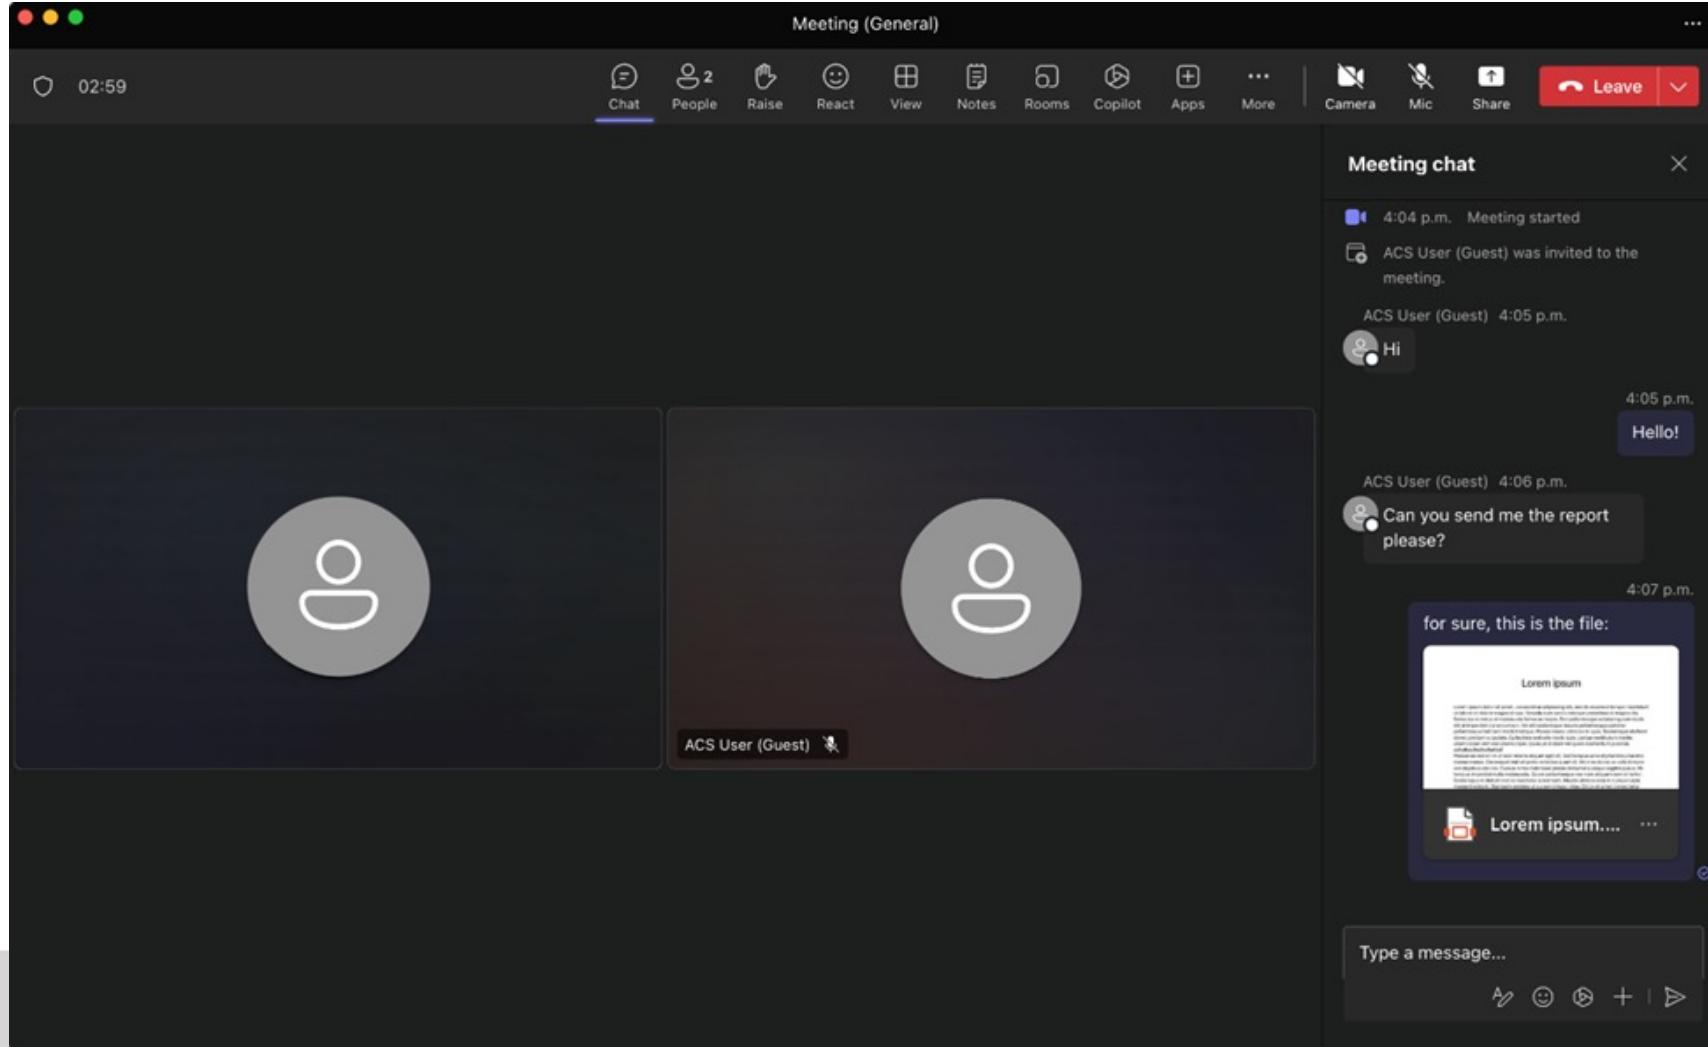

The screenshot shows the Azure Communication Services (ACS) Core Services landing page. At the top, there's a navigation bar with a user icon, a search bar, and links for "Import favorites", "onboarding", "acs daily", and "Garadge". On the right side of the nav bar are buttons for "Call Diagnostics", "Experiments", "Give Feedback", and a "MB" badge. Below the nav bar, the title "Azure Communication Services" is displayed with a purple speech bubble icon containing a phone receiver. Underneath it, the subtitle "Core Services" is shown. The main content area features five service cards with corresponding images:

- Voice & Video Calling**: Shows a person on a video call. Description: "Interactive, high quality audio and video calling that gets the job done".
- Chat**: Shows a person using a computer with a headset. Description: "Add chat to your applications with an easy to use, low maintenance interface".
- Telephony**: Shows a person holding a smartphone. Description: "Calling infrastructure to enable end-to-end communication scenarios".
- SMS**: Shows a person holding a smartphone. Description: "Reliably send and receive text messages with insights on deliverability and usage".
- Email**: Shows a person working at a desk with multiple monitors. Description: "Send transactional emails to customer and group".

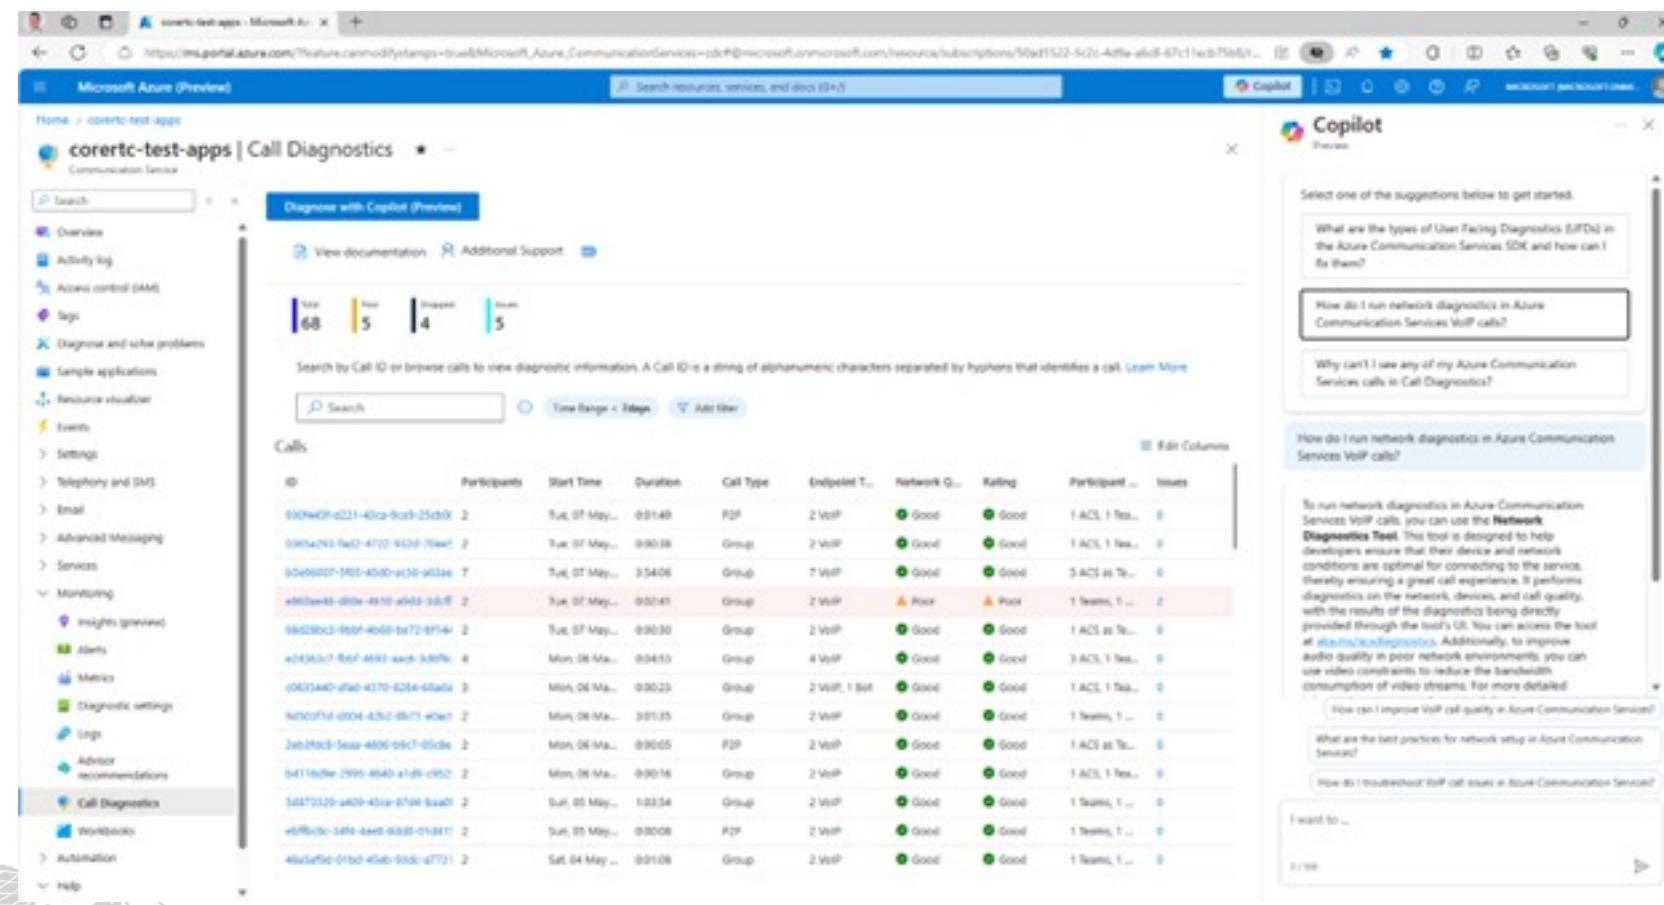

At the bottom of the page, there's a footer with icons for microphone, camera, reactions, raise hand, present, and other communication functions, along with "People" and "Chat" buttons. The word "MÜNCHEN" is visible at the very bottom left.

Enhancements to custom calling experiences connected to Microsoft Teams (File sharing during a meeting)

Enhancements to custom calling experiences connected to Microsoft

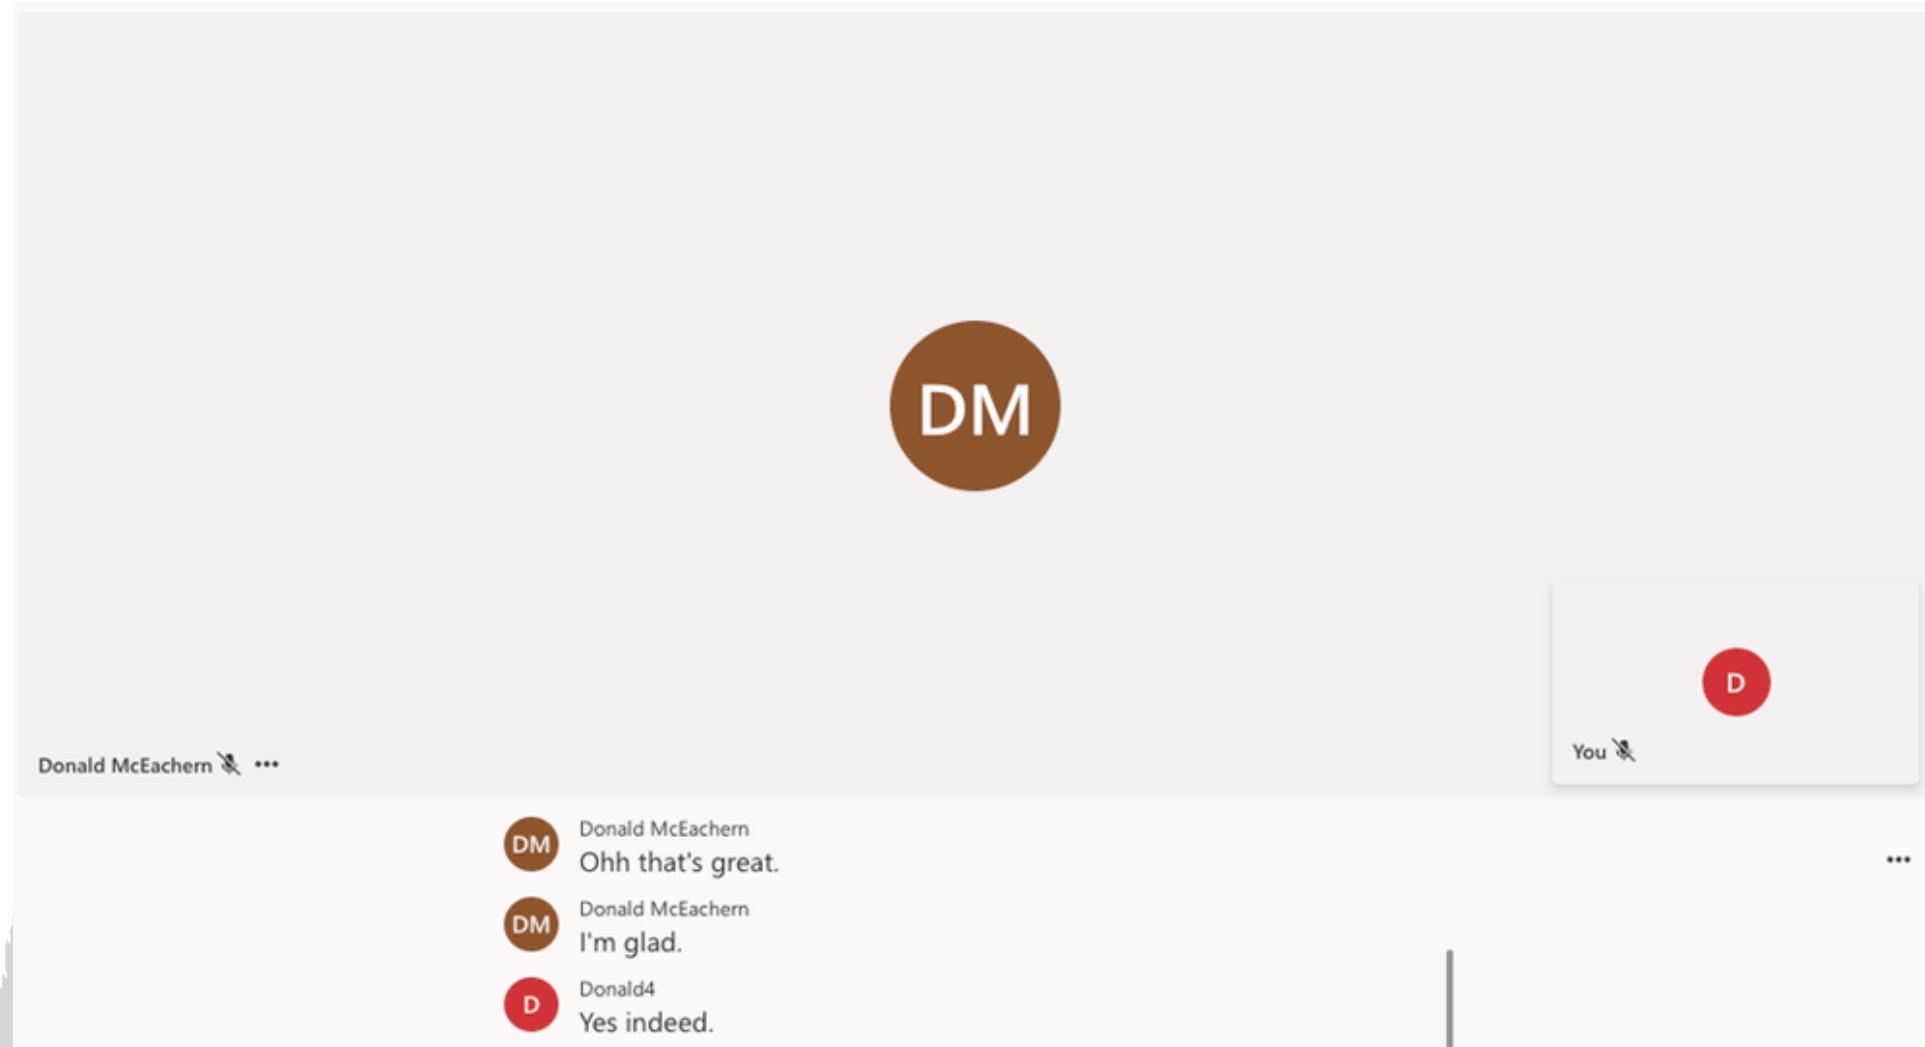

- Real time transcription using Azure AI Speech
- Noise suppression during a video call
- Stream live audio using the Audio Streaming API. Extract raw audio in two formats
- Call Diagnostics Center

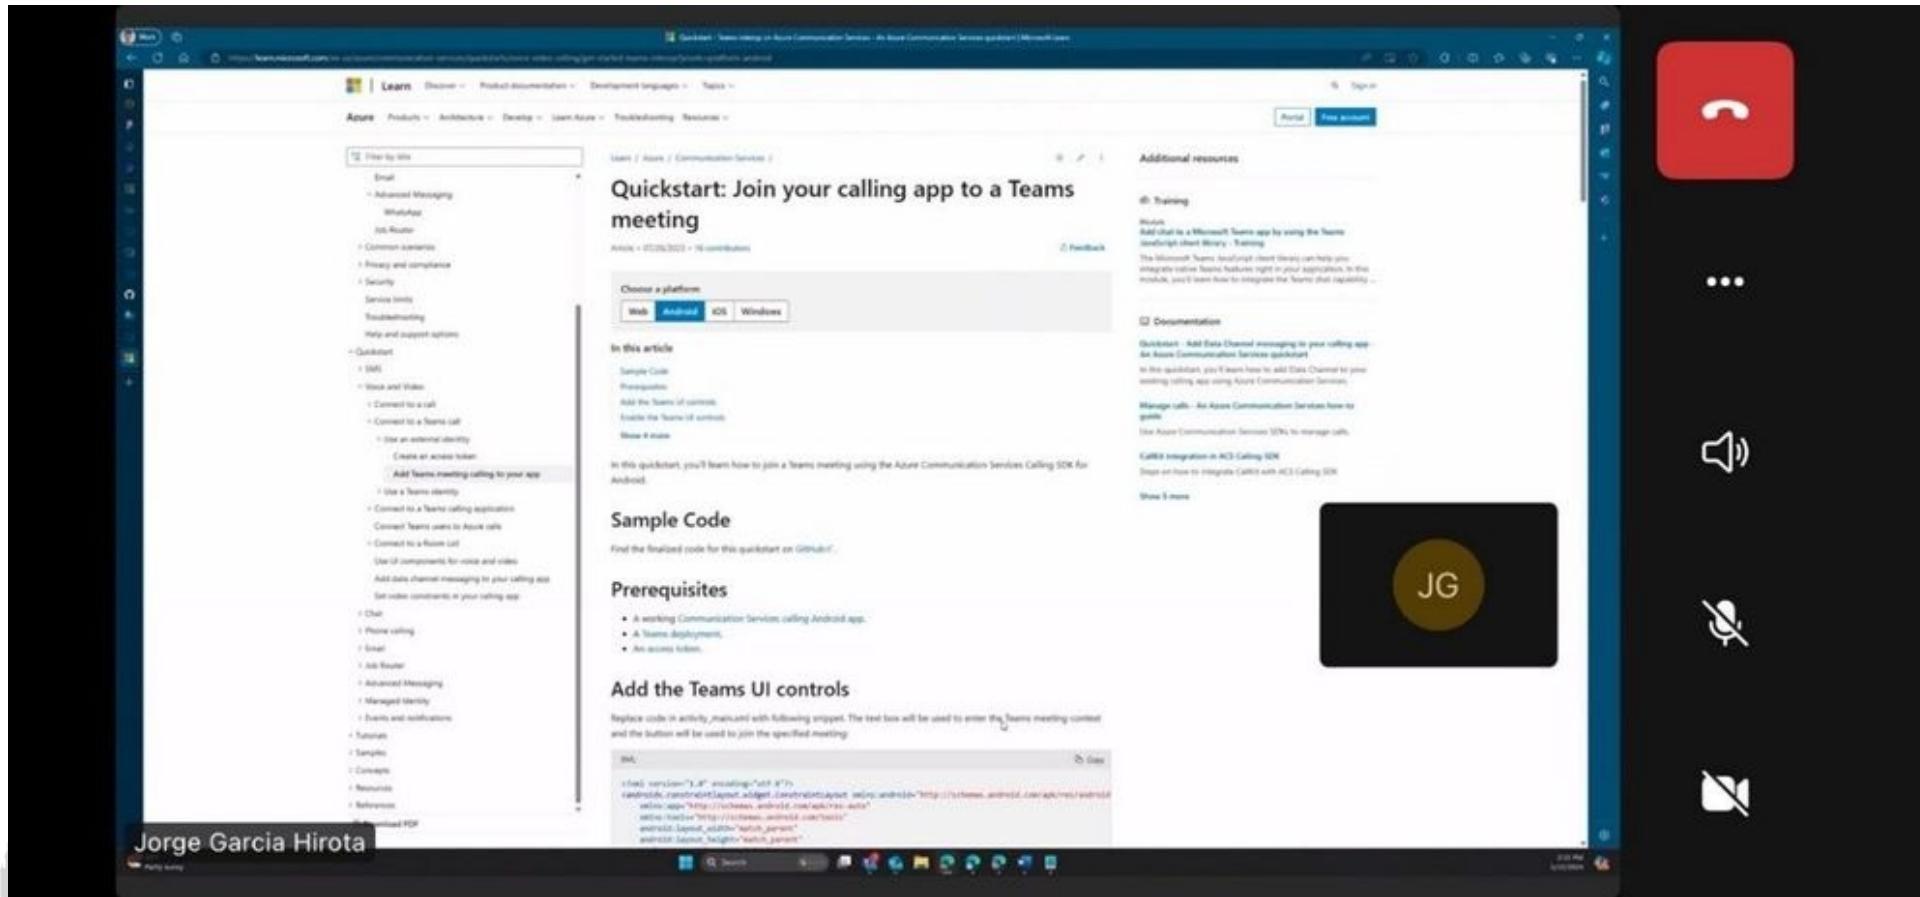

The screenshot shows the Microsoft Azure portal interface for the 'Call Diagnostics' center. On the left, there's a navigation sidebar with various service links like Overview, Activity Log, Access control (IAM), Logs, Diagnose and solve problems, Sample applications, Resource visualizer, Events, Settings, Telephony and SMS, Email, Advanced Messaging, Services, Monitoring, Insights (preview), Alerts, Metrics, Diagnostic settings, Logs, Advisor recommendations, and the selected 'Call Diagnostics'. The main content area is titled 'Diagnose with Copilot (Preview)' and displays a summary of recent calls. It shows 68 total calls, with 5 P2P, 4 Group, and 5 2v2P calls. Below this, a table lists individual calls with columns for ID, Participants, Start Time, Duration, Call Type, Endpoint Type, Network Quality, Rating, Participant Rating, and Issues. Each row includes a link to view detailed diagnostic information. To the right of the table, there's a sidebar with 'Copilot' branding and several help cards: 'What are the types of User Facing Diagnostics (UFD) in the Azure Communication Services SDK and how can I fix them?', 'How do I run network diagnostics in Azure Communication Services VoIP calls?', 'Why can't I see any of my Azure Communication Services calls in Call Diagnostics?', 'How do I run network diagnostics in Azure Communication Services VoIP calls?', and 'To run network diagnostics in Azure Communication Services VoIP calls, you can use the Network Diagnostics Tool. This tool is designed to help developers ensure that their device and network conditions are optimal for connecting to the service, thereby ensuring a great call experience. It performs diagnostics on the network, devices, and call quality, with the results of the diagnostics being directly provided through the tool's UI. You can access the tool at aka.ms/azdiag. Additionally, to improve audio quality in poor network environments, you can use video constraints to reduce the bandwidth consumption of video streams. For more detailed information, see the [How can I improve VoIP call quality in Azure Communication Services?](#) article.'.

Enabling call forwarding settings on Teams phone devices

The screenshot shows the Microsoft Teams admin center interface. The left sidebar is titled "Microsoft Teams admin center" and includes sections for Dashboard, Teams, Users, Teams devices, Store, Teams Rooms on Windows, Teams Rooms on Android, Surface Hubs (Legacy), Panels, Phones (selected), Displays, SIP devices, Teams apps, Meetings, Messaging, and Voice.

The main content area is titled "Calling settings". It contains the following settings:

- Advanced calling**: Off. A note says: "This setting might not be applicable if the device isn't updated."
- Hotline**: Off.
- Call quality survey**: Off. A note says: "This setting might not be applicable if the device isn't updated."
- Display call forwarding on home screen**: On. A note says: "Applies only to common area phones and personal phones."

Below the "Calling settings" section are "Device settings" and "Network settings".

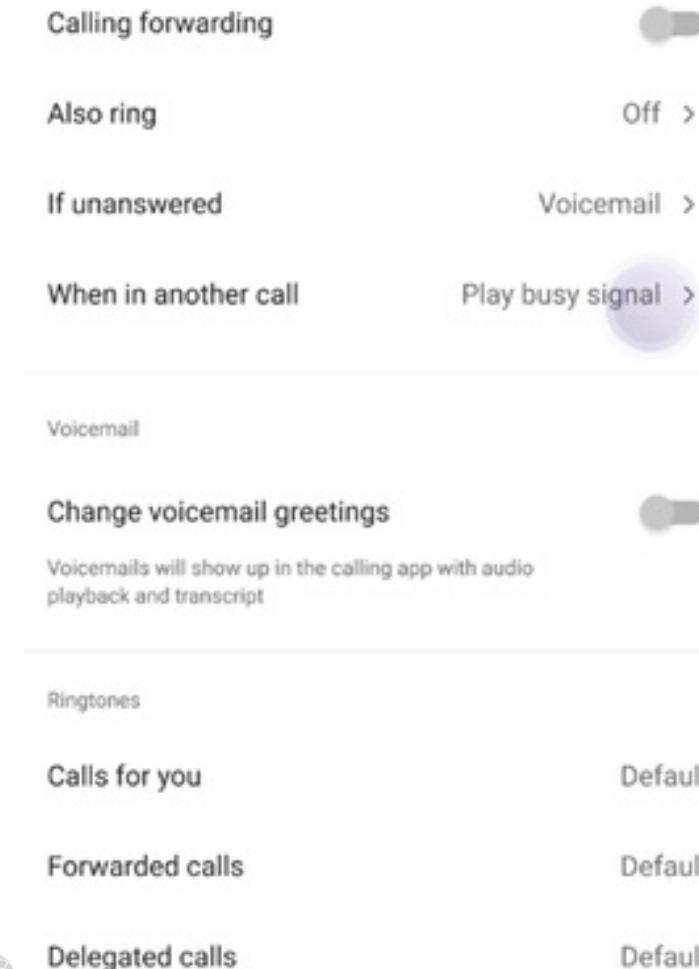

Device settings includes:

- DHCP enabled: Off.
- Logging enabled: Off.

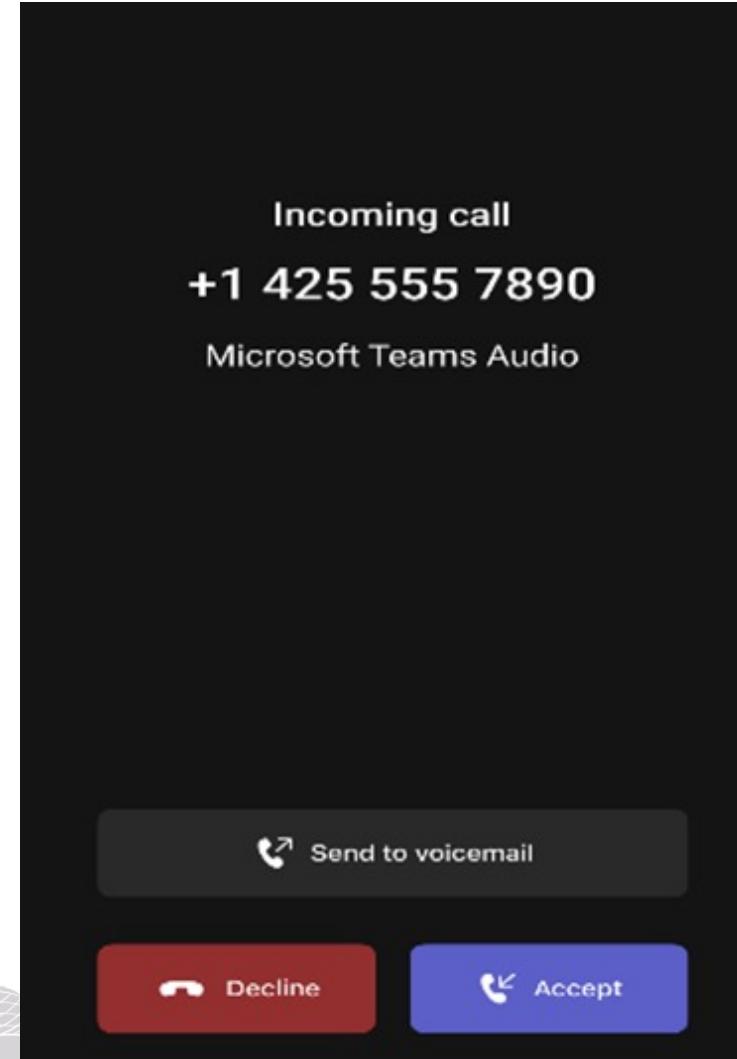

Network settings includes:

- Host name: host
- Domain name: domain.com
- IP address: 10.5.140.156
- Subnet mask: 255.255.255.0
- Default gateway: 10.5.140.1

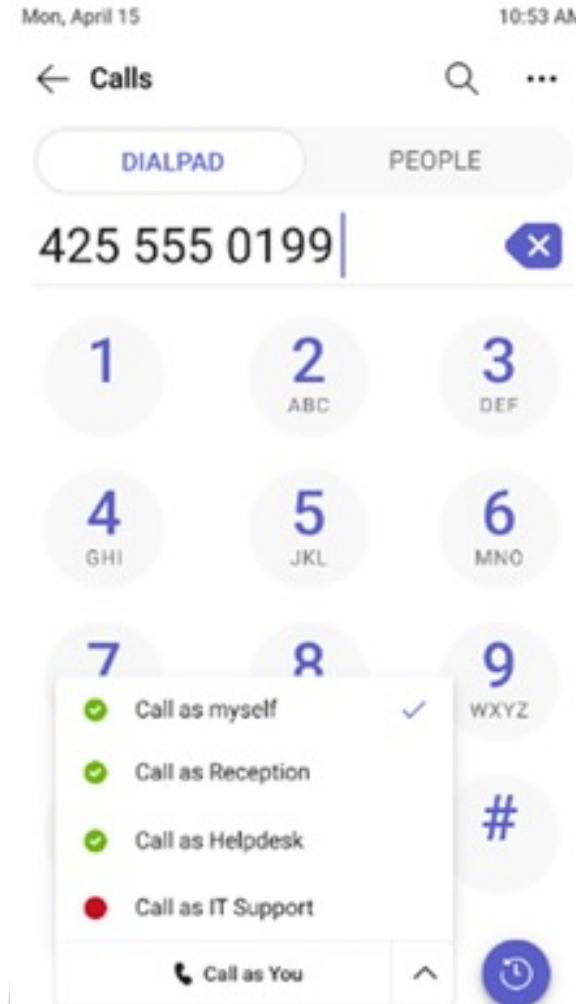

Busy-on-busy end user setting on Teams phone devices

Call on behalf of a Call Queue on Teams phone devices

Prompt Teams phone device users to set phone lock PIN through the Teams admin center

The screenshot shows the Microsoft Teams admin center interface. The left sidebar has a navigation menu with sections like Dashboard, Teams, Users, Manage users, Guest access, External access, Teams devices (selected), and others. Under Teams devices, there are sub-options for Store, Teams Rooms on Windows, Teams Rooms on Android, Surface Hubs (Legacy), Panels, Phones (selected), Displays, SIP devices, Teams apps, and Meetings.

The main content area is titled "New Configuration Profile". It includes a "Description" input field and a "General" settings section. In the General section, there are two toggle switches: "Set device lock" (Off) and "Enforce device lock" (On). A note below the "Enforce device lock" switch states: "When this is on, user on the phone device will be asked to set device lock PIN within a certain period." There are also dropdown menus for Language (English (United States)), Timezone ((UTC-12:00) International Date Line West), Date format (DD/MM/YYYY), and Time format (12 Hours (AM/PM)). At the bottom, there is a "Maintenance window" section with "Start time" (01:00) and "End time" (04:00) dropdowns, and a "3hrs" button.
