We're looking for volunteers to help with the event on the day of launch, 4 people (2 on each day). You'll be proud owners of exclusive swag :) Add your names and preferred day to this table if you're interested." Below the message is a table component titled "Afternoon session".

Marie	MB	

A red box highlights the row for "Marie". A blue box highlights the "AM" entry in the "Preferred day" column for Daniela Mandera.

Below the table, there is a note: "New 6 replies from Lawrence, Aaron, and 4 others". Another post from Mona Kane at 1:23 PM says: "All good from me, we have a design review tomorrow and then should be in good shape. We had to do some edits for the client since she originally didn't want us to reference any competition but after looking at the work we did for the other client from last month who wanted promotional material, she's more on board with that".

At the bottom, there is a "Start a post" button.

She initially didn't want us to reference any of the competition, but after looking at the work we did for another client, she agreed to go in that direction. We've already made the adjustments.

A modal window is open, titled "More about cow burps" from "Carbon Neutral Club". The modal features a scenic image of cows in a field. Below the image, a bold statement claims: "It's true! Scientists in Hawaii have found a type of seaweed that reduces methane in cow burps by 80%." A detailed paragraph explains the research: "Recent research suggests that a special type of seaweed, called *Asparagopsis taxiformis* (a.k.a. Red Seaweed) is capable of reducing methane production in cattle by over 80 percent. Seeing as livestock production (primarily cows) is responsible for close to 15% of global GHG emissions, this recent discovery could pave the way for a much more climate-friendly form of raising cattle. To learn more, check out some of the recent research at UC Davis." A callout box highlights a challenge: "A challenge to reduce your meat intake. Swapping one red meat meal for a vegetarian meal per week will reduce your footprint by... ↓ 0.3 tonnes!" At the bottom of the modal are two buttons: "Maybe later" and "Take the pledge (+500 points)".
